Key Skills

Oops Design Patterns

Frontend Development

Backend Development

Rest API Development

Github

Postman

Mongodb Atlas

SQL Server Integration Services

Debugging

Troubleshooting Skills

Testing Life Cycle

Technical Skills

HTML and CSS

Javascript

React.js

Node.js

Express

MongoDB

About Me

Highly skilled and experienced Full Stack Developer with expertise in the MERN stack. Proven track record in delivering cutting-edge web applications with seamless user experiences. Passionate about innovation and leveraging technology.

Profile Summary

Experienced Full Stack Developer | MERN Stack Specialist | MongoDB | Express.js | React.js | Node.js | OOPs | System Design | Automation | WebSockets | Realtime Monitoring | Advanced Security Features | Collaborative Team Player | Kantech Entrapass Web Application

Education

2022, Full Time

Bachelor of Technology, ELECTRONICS AND COMMUNICATION

Guru Gobind Singh Indraprastha University (GGSIU) , 80%

2018

12th, CBSE, English, 72%

2016

10th, CBSE, English, 64%

Work Experience

2022 - 2023

Software Developer

Johnson Controls

SQL Server

OOPS Programming

System Design

Redux Library

Bootstrap

Java

Rest API Integration

Rest API Testing

Software Development

Data Structures And Algorithm Design

Personal Information

Date of Birth	19th October 1999
Gender	Male
City	Gurgaon/Gurugram
Country	INDIA

Key Result Area

Kantech's Entrapass Web app development at Johnson Controls with MERN expertise. Proficient in MongoDB, Express.js, React.js, and Node.js for seamless performance. Managed robust and scalable data storage with MongoDB. Leveraged Express.js for smooth API handling and communication. Developed intuitive UI with React.js for enhanced user experience. Collaborated on advanced security features, prioritizing application security and teamwork.

2022 - 2022

full stack developer Intern

Agile Cockpit

Key Result Area

Proficient in MERN stack for robust web applications: MongoDB, Express.js, React.js, Node.js. Skilled in OOPs, system design, and automation for efficient codebases. Experienced with WebSockets for real-time communication and monitoring. Familiar with Git version control and collaborative development practices. Developed e-commerce site with product management, authentication, cart functionality, and secure payments.

Projects

212 Days

Kantech Product (Entrapass-web Application)

Implemented a user-friendly interface with React.js, providing a seamless and intuitive experience for system administrators and end-users. Utilized Redux for state management, ensuring smooth data flow and real-time updates without page reloads. Integrated advanced security features, including access control, user authentication, and role-based permissions. Developed RESTful APIs for secure communication and data exchange between the frontend and backend. Integrated third-party APIs for video surveillance and door access control, allowing users to view live feeds and control doors from within the web application.

4 Months

E-commerce Website (Amazon-Clone)

Feature-rich e-commerce site with product management, user authentication, and secure payments. User-friendly interfaces powered by React.js for enhanced navigation and engagement. Seamless shopping experience with efficient data storage using MongoDB.
