# GAURAV SHANDILYA

gsharmaji@gmail.com | +91 8777595643 | LinkedIn | Github | Portfolio

## EDUCATION

**B.Tech, Computer Science and Engineering**                                        MDU, ROTHAK | July 2023
University Institute of Engineering and Technology

## WORK EXPERIENCE

**SBFC** | Software Development Engineer Intern                        Remote, India | May 2020 – Aug 2020
- Designed and implemented a dashboard using **CanvasJS** and **jQuery** to visualize data stored in **MYSQL**, decreasing time to understand content consumption by employees by over 10 times.
- Ensured only authorized employees have access to the application.

**GFG** | Technical Content Writer                                                        Remote, India | Present
- Try to express the knowledge that I have gained as a self taught developer in form of writing.
- Writes development related content.

## PROJECTS

**INVOIZEN** ⬀                                        React JS, HTML, Tailwind CSS, Redux, Framer Motion
A responsive invoice management web app with subtle animations, utilizing React.js and Tailwind CSS. Implemented Redux for efficient state management, while implementing dark and light mode for an enhanced user experience.

**TRENDY TRIMZ** ⬀                                                React JS, HTML, Tailwind CSS, JavaScript
Built minimalist fashion shopping web app using React.js and Tailwind CSS. Utilized component API for React state management. Integrated with a fake store API for product data. Clean and responsive design ensures seamless user experience. Implements cart functionality for item management.

**EXCEL CLONE** ⬀                                                                        HTML, CSS, JavaScript
Successfully collaborated with a partner to develop a functional Excel clone using HTML, CSS, and JavaScript, incorporating essential spreadsheet functionalities and responsive design principles.

## OTHER ACHIEVEMENTS

**HACKTOBERFEST 2022** ⬀                                                        Open Source Contributions
- OpenShift-Docs : Remove typo and bugs on live documentation page. Gained hands on experience in **ASCII Binder**. Learned to understand complex project folder structure.
- Moja Global (Flint UI) :(BUG) Fixed different styling on hovering and implemented uniform styling throughout the website.
- Freecodecamp : (Typo Fix) in JavaScript RPG game.

**HACKTOBERFEST 2021** ⬀                                                        Open Source Contributions
- Codedamn : Submitted solution of Eventually - Stunning HTML5 Landing Page that was a part of codedamn challange during Hacktoberfest 2021. Gained hands-on experience of **Github**, **HTML** and specially and **CSS**.
- OpenShift-Docs : Remove typo and bugs on live documentation page.
- Mattermost-webapp : Added Dependencies of missing library. Became the part of mattermost community.

**GOOGLE CLOUD PROGRAM 2021** ⬀                                                                        GCP
- Google Cloud Program 2021 : Completed different challenges and earned badges during the program.
- Got familiar with Cloud Computing
- Mostly my focus was swags at that time but got familiar with Jenkins and other tools.

## SKILLS

**Languages:** Java, C++, Python, C, PHP                                        **Databases:** MYSQL, MongoDB
**Web Development:** JavaScript, ReactJS, Redux Toolkit, TailwindCSS, HTML/CSS        **Technology:** Git, GCP
**Other:** Good at googling stuff
