10 th	Central Academy Sr Sec School	Science	2018	67.7

Work Experience

1. Marcadeo – Frontend Developer Intern

(April-2024 to October-2024)

- In a financial project, I was in charge of medium-scale data management. Managing the organization's customers, suppliers, staff, users, and payment systems shows that one is familiar with enterprise-level software.
- Maintaining customer data, including past engagements, active payments, and information; creating thorough reports for all financial activities and company indicators.
- Leveraged JavaScript's robust validation capabilities to implement rigorous data verification protocols, significantly enhancing output accuracy, reliability, and systemic integrity.
- Using React graphs and charts to implement a system to monitor prospective customers and their conversion status. establishing profiles and keeping an eye on metrics for employee success.

Skills

- **Programming Languages** – C++, JavaScript, HTML, CSS
- **Libraries/Framework** – React Js, Material UI, Bootstrap, Tailwind CSS, SASS, Redux, Webpack, Responsive Design, Rest API
- **Developer Tools** – Visual Code, GitHub, Replit, Postman

Projects

1. Administrative Management Platform: React-Powered Dashboard Solution

- Meticulously crafted utilizing cutting-edge React libraries, the dashboard delivers an intuitive and responsive user interface that enables real-time data visualization and performance tracking..
- Implemented react-router-dom to facilitate seamless, dynamic routing and enhanced user navigation across different application sections.
- Integrated eCharts to transform complex data into compelling, easily interpretable visual representations, enabling administrators to derive meaningful insights at a glance.

2. E-Commerce Innovator: Shopping Cart Platform

- Meticulously crafted to transform virtual browsing into an immersive shopping experience, the platform strategically integrates advanced features that seamlessly guide customers through a compelling purchasing journey.
- Engineered with cutting-edge responsive design principles, the platform dynamically adapts to an extensive range of device specifications—from compact mobile screens to expansive desktop displays.

3. Notify Music: Digital Music Experience

- Precisely crafted to elevate traditional music consumption, this platform strategically leverages HTML, CSS, and JavaScript to create a dynamic musical discovery environment.

Achievements

- I got 70 percentage in **National cyber security Awareness** Competition.
- I have participated in the **Zonal level sports fest** .
