Profile

As a passionate and dedicated fresher in the field of web development, I am enthusiastic about creating dynamic and responsive user interfaces using React. With a solid foundation in HTML, CSS and JavaScript, I am eager to leverage my skills to contribute to innovative projects and collaborate with experienced developers. I am a quick learner with a strong problem-solving mindset, aiming to continuously enhance my abilities while delivering high-quality code and exceptional user experiences.

Technical Summary

- Proficient in HTML5, CSS3, JavaScript and React, with a focus on writing clean, modular, and scalable code.
- Knowledge of responsive design principles and mobile-first development, ensuring seamless user experiences across devices.
- Familiarity with CSS frameworks like Bootstrap and Tailwind.
- Good understanding of version control systems, such as Git, for efficient code collaboration and project management.
- Knowledge of browser compatibility and performance optimization techniques to deliver fast and optimized web experiences.
