Summary

Dedicated Test Engineer bringing 3.0+ years of experience and diligence to handle needs of large and complex products. Solid history in both manual and automated testing. Seek to apply expertise to growth-oriented, dynamic position.

Experience

Mypcot Infotech   Jan 2020 to Current
Automation Test Engineer
Mumbai, Maharashtra

Experience Summary

- A detail oriented professional with Overall **3.1+ years of experience** in **Manual Testing, Functional Testing, API Testing, Web Service Testing, Automation Testing**
- Worked in **Beverage domain, Insurance domain and Social domain** Project.
- Good Experience in Software development Life cycle **(SDLC)** and Software testing Life Cycle **(STLC)**.
- Good understanding in **Web Service Testing** with the help of **SOAP UI** which includes creating the test cases and validation of the same.
- Worked on **Agile Methodology**.
- Experience in **Functional** Testing, **Regression** Testing, **Re-testing**, **Sanity**, **Smoke** Testing.
- Experience in analyzing business specification documents, developing **Agile Sprint test plans, designing Test Cases, Executing test case**.
- Actively involved in **Defect Tracking** and **Bug Reporting** using JIRA.
- Good experience of **Postman** in API Testing.
- Performed **Automation testing** using **Selenium** on **Web based (Browser) application**.
- **Coordinating** and **communicating with BA team** for better understanding of functional requirements and **for developing quality test cases**.
- Good Experience in **Collections**, **Exceptions Handling**, **String Handling**.
- Executed test scripts on **Firefox, IE, MS edge** and **Google chrome**.
- Experience on **SQL** to conduct **Database Testing**.
- Participate in **scrum meeting** to discuss about project progress report every day.
- Prepared **Traceability matrix** to map use case and Test Case.
- Basic experience on **Unix** commands.
- Good experience in creating, modifying, and enhancing both manual Test cases and Test Scripts created in Selenium Web Driver.
- Experience in developing the scripts using **TestNG** annotations.
- Experience in working on **Page Object Model (POM)** Design pattern with **Hybrid framework**.
- Knowledge of **Jmeter** tool for **performance testing and API testing** .
- Knowledge of **JAVA**, **OOPS Concept**, **Collection framework**, **Array** and **String class**.
- Experience in Build Management Tool which is **Maven** for the **Data Driven Framework**.
- Good understanding of Automation life cycle and Quality process.

- Experience in developing, executing and maintaining **agile test plans**, specifications, test cases, test reports and documentation.
- Knowledge of CI/CD **Jenkins** tool.
- Well-disciplined and highly motivated Executive. A systematic, organized Team Player with Good communication and Interpersonal skills, ability to meet dead-lines and **work under pressure**.
- A result-oriented **team player** and skillful in coordinating with development team and problem solving abilities.
- Good communication, collaboration with proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.

Project 1

Project Name: Molson Coors.

Domain: Beverage domain.

Roles: Functional Testing and Non-Functional Testing, Database testing, Web service Testing.

Responsibilities:

- Requirement Analysis: Understanding the requirements and communicating with BA team for better understanding of the requirements.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Performing Functional Testing, Regression Testing and Re-Testing.
- Identification of defects, registering them in JIRA and reporting them to the onsite lead.

Project 2

Project Name: Mercury insurance

Domain: Insurance

Roles: Functional Testing and Non-Functional Testing, Database testing, Web service testing.

Responsibilities:

- Analyzing & validating the completeness of business requirements.
- Generating the Test scenarios and Test cases.
- Generating Regression Test scripts by extracting the requirements that need to be tested from available documentation and/or liaising with the relevant people.
- Developed Automation Test Scripts.
- Creating POM (page object model) and Test classes for the framework.
- Retesting defect fixes on each release build.
- Performed Smoke, Functional, System Integration, Retesting, Regression testing.
- Experience in Designing and implementation of TestNG framework with Web driver.
- Performed parameterization to implement Data Driven framework.
- Conduct Internal Test Case Peer Reviews.

Project 3

Project Name: ProfCommunity

Domain: Social Domain

Roles: Functional Testing and Non-Functional Testing, Web service testing **Mobile testing** manual.

Responsibilities:

- Writing test cases for the mobile application, including functional, performance, and usability testing.
- Performed Testing mobile applications on different devices such as smartphones and tablets, running on different operating systems (iOS, Android, Windows, etc.)

- Identified and reporting defects found during testing, including providing detailed steps to reproduce the defect.
- Executing the test cases and documenting the results.
- Responsible for collaborating with the development team to ensure that the mobile application meets the requirements and is of high quality.

Technical Expertise

- Operating System: - Windows XP, Windows 7, Windows 10 and UNIX.
- Programming Languages: - JAVA, SQL.
- Project Management Tool :- JIRA
- Web service Testing Tools: - SOAP UI, Postman.
- Microsoft Office:- Word, PPT, Excel
- Performance : Jmeter.

Education and Training

Solapur University

Bachelor of Engineering

Personal Details

- **Date of Birth** : 10/10/1994
- **Address**: Mumbai, Maharashtra.
- **Nationality**: Indian.
- **Gender**: Male.
- **Languages known**: English, Hindi, Marathi, Kannada.
