PROJECTS

XRPLasVegas I www.xrplasvegas.com

- Created user interfaces with React, focusing on responsive and interactive design. Built reusable components for consistency and efficiency. Used HTML and Bootstrap to create attractive and responsive layouts. Ensured the website worked well on all devices and screen sizes. Added JavaScript features for better user interaction and a smooth browsing experience.

Glocal View Infotech I www.glocalview.com

- Designed and developed responsive web applications ensuring cross-platform compatibility across multiple devices and browsers, utilizing cutting-edge technologies to deliver seamless user experiences.

Pragyaan I www.pragyaan.com

- Designed, developed, and deployed responsive web applications, ensuring cross-platform compatibility and seamless user experiences. Utilized cutting-edge technologies and maintained existing codebases, providing expert support and driving customer satisfaction through timely issue resolution.

Pragyaan India I www.pragyaanindia.com

- Successfully maintained and optimized existing codebases, employing advanced debugging techniques and methodologies to rapidly identify and resolve complex technical issues, while providing expert-level support to clients, driving customer satisfaction, and fostering long-term relationships.
