SUMMARY

Motivated front-end web developer with a Bachelor's degree in Computer Science. Proficient in HTML, CSS, Bootstrap, and JavaScript. Skilled in React.js, Redux, Hooks, Context API, ExpressJs and MongoDB. Skilled in creating responsive and visually appealing user interfaces that enhance user experience. Proficient in developing and maintaining end-to-end web applications, combining strong frontend design skills with backend logic implementation.

TECHNICAL SKILLS

Programming Languages: C++, JavaScript
Web Frameworks: Bootstrap, React.js, Redux, Hooks.
Other Tech – Rest API, Express.js, MongoDB, SQL, HTML, CSS.

PROJECTS

Netflix Clone

- Developed a frontend Netflix Clone using modern web technologies such as HTML, CSS, and JavaScript.
- Designed and crafted a responsive and visually appealing user interface that closely emulates the Netflix website.
- Created a dynamic banner section showcasing popular movies and TV shows, enhancing the user's first impression.

Food Ordering Website

- Developed a dynamic and user-friendly food ordering website using the MERN stack (MongoDB, Express.js, React, Node.js).
- Utilized React components and state management to build interactive features like real-time cart updates and order customization.
- Integrated user authentication and authorization, allowing users to create accounts, log in, and track their order history.
- Designed and developed the backend using Express.js and Node.js, providing RESTful APIs for frontend communication.
- Utilized MongoDB to store and manage item category, menu items, user profiles.

EDUCATION

2019-2023 - Bachelor of Technology (Computer Science & Engineering) - GNDEC, Ludhiana

2017-2018 - 12th Standard – U.P. Kirana Seva Samiti Vidyalaya, Kanpur, UP – ICSE Board

INTERNSHIP

Frontend Developer Intern, Phagwara, Punjab

VenturePact (Jan 2023 – June 2023)

- Create UI Components with reusable codes for a better user experience.
- Developed and maintain user-friendly website using Html, CSS, JavaScript and ReactJs during my internship.
- Created technical requirements and worked with engineering team to develop, test, and launch functionality on time with high quality.
