## PROJECTS

**Netflix Clone** | Html, Css, Javascript, React, Redux, Node js

Dec 2023

- The site is optimized for the web as well as phones.
- I have used the **Omdb API** endpoint to fetch movie details.
- Use **JWT for token-based authentication** to manage user sessions.
- The site is **Login and signup functionality** and I have used **Google Authentication** for Login and signup with the help of **firebase**.
- The site is showing the **profile section** and also showing the user current plan is subscribed and all the plans is showing in profile section

**Ecommerce-Sanity** | html, css, javascript, React js, Next js, context api, tailwind css

Oct 2023

- Modern **Full Stack ECommerce Application** with Stripe Sanity.
- Advanced State Management** of the entire application using React Context API.
- File-based routing**, Data fetching that allows server-side rendering and static generation which makes your websites incredibly optimized (show `getServerSideProps`, `getStaticPaths`, `getStaticProps`), and you'll also how to use Next.js as a backend endpoint.
- The site is optimized to operate as a mobile app for the web as well as phones.

**Intuitive-Quiz-Hub** | Html, Css, Javascript, Context Api, Redux

Dec 2022

- Using **Trivia open tb API** for fetching the details.
- Quiz application is using the **React and Redux is StateManagement**.
- Score** Progress tracking to monitor the number of attempts.
- Dynamic scoring system** to track the user's performance.
- Progress tracking to monitor the number of **quizzes attempted**.

**MyTextUtils** | Html, Css, Javascript, React

2022

- Textutils is an web application which can be used to **analyse text** to form some text operations on it.
- operations include **uppercasing, lowercasing, copying, removing extra spaces, captialized** the text properly we can even make the website to speak the text.
- you can even can change the **color** of the container where you type the text.
- Textutils is showing **Word Count** and **character Count**. and Showing **Read Time** of text.
