- Designed a comprehensive Java-based Airline Management System, improving flight scheduling and booking processes by 35%.
- Integrated Hibernate ORM for efficient database operations, and Spring Framework robust back-end processing.
- Enhanced system security, reducing unauthorized access by 25%.

Snake Game | *Java*　　　　　　　　　　　　　　　　　　　　http://surl.li/upgubi
- Deployed a classic Snake Game featuring intuitive controls and a high-performance user interface, significantly enhancing the overall gameplay experience by 40%, with improved responsiveness visuals that captivate users.
- Optimized the game's performance to minimize memory usage, resulting in a substantial reduction of load times by 30% and ensuring a smoother, more efficient gameplay experience even on devices with limited resources.

Online Bakery System | *HTML, CSS, JavaScript, React.js, PHP, MySQL*　　　http://surl.li/emkupz/
- Created a comprehensive online bakery system with secure order processing, leading to a 20% increase in user engagement and a 15% reduction in cart abandonment rates.

TECHNICAL SKILLS

- Java, C++
- Spring Framework
- SQL, JDBC, Hibernate ORM
- HTML, CSS, JavaScript
- React.js
- MVC Architecture
- Data Structures and Algorithms
- RESTful API Development
- MySQL, No-SQL
- Eclipse, Linux CentOS

LEADERSHIP & ACHIEVEMENTS

- **GeeksforGeeks:** Solved 459 problems, achieved 3rd rank in the institute.
- **LeetCode:** Completed 175 problems with a competitive rating of 1563.
- **Code360:** Tackled 480 problems and secured a rating of 1854.
