Summary

Highly motivated software developer with 2 years of experience seeking a challenging position where i can utilize my skills in Spring Boot, Spring MVC, JPA, Postman, Core Java, Flutter, Android Studio ,unit testing, Junit ,Swagger, Rest Api, Json, Maven and Microservices to contribute to the success of a dynamic organization.

Skills

Core Java | Spring Boot | MySQL | SQL | Oracle | Flutter | RestApi | Git | Postman | Json | Swagger | GitHub | JPA | Microservice | Collection Framework | Spring MVC | Monolithic | Jira | Maven | Junit | Java8

Work Experience (2 years of experience)

Synergy Software Ltd| Software Developer

Feb'24 - Present

- Developing REST API using Spring Boot.
- Utilizing Data JPA for efficient database interactions and calling stored procedure
- Implemented batch processing to efficiently import and process data from CSV files into the database. This involved developing robust data pipelines to handle large volumes of data
- Working with IntelliJ IDEA for application development and debugging
- Performing CRUD operations
- Developed functionality to export database data to Excel files

Dataproduct Systems| Software Engineer

Jul'22 - Feb'24

- Developed REST API using Spring Boot.
- Utilized Data JPA for efficient database interactions and implementing data persistence mechanisms.
- Utilized Swagger for documentation and Postman for API testing and ensuring the stability and accuracy
- Worked with Android Studio and IntelliJ IDEA for application development and debugging
- Developed user interface using Flutter
- Conducted unit testing using JUnit to identify and fix defects in the codebase
- Performed CRUD operations

Projects

Synergy Software Ltd :

Project : ProAccounting

ProAccounting is an application which provides a back-office solution for brokers to efficiently manage stock market transactions. Enhanced transaction processing, data accuracy, and reporting capabilities, ensuring compliance with financial regulations

Tools & Technology Used:

- Java 8, Springboot, Stored Procedure, Maven
- Oracle, Spring Jpa
- Git, Jira, Open Api, Postman
- IntelliJ idea

Dataproduct Systems :

Project : Booking

Booking is a web application for brokers to book tickets for tourists visiting MP forests. The application can run in both Android and ios

Tools & Technology Used:

- Java 8, Spring Boot, Flutter, Maven, Swagger
- MySQL, Spring Jpa, Flyway
- Git, Jira, Junit, Postman
- IntelliJ idea, Android Studio

Project : Local Job

Local Job a cross-platform mobile application for Android and iOS. The app provides a user-friendly interface for job seekers to search for job listings and apply for positions directly from their mobile devices. It includes features such as job search filters, application tracking, and notifications for new job opportunities.

Tools & Technology Used:

- Java 8, Spring Boot, Flutter, Maven, Swagger
- Oracle, Spring Jpa, Flyway
- Git, Jira, Junit
- Visual Studio Code, Android Studio

Education

Red Cross Institute of Technology

2021 - 2022

- Diploma in Computer Application | Percentage: 77

(CRM) Jat College

2019 - 2022

- (BCOM) Bachelor of Commerce | Percentage: 63.45

VISHVAS SR SEC SCHOOL

2018 - 2019

- CBSE (Class XII), Percentage: 77
