- Material UI • Bootstrap
- GIT • Docker • Java

SOFT SKILLS

- Time Management • Team Player
- Self Motivated

COURSEWORK

UNDERGRADUATE

Object Oriented Programming
Operating Systems
Data Structures and Algorithms
R-DBMS
Internet Of Things
Computer Networks

CERTIFICATES

Hackerrank Problem Solving
Data Science : Introduction
PostgreSQL Bootcamp : Go From
Beginner to Advanced
HTML, CSS, and Javascript for Web
Developers

EXPERIENCE

DIRO.IO FULLSTACK DEVELOPER

Jan 2024 - Currently | Noida, India

REACT.JS | ANGULAR.JS | JAVASCRIPT | NODE.JS

- Creating product for DIRO, first open banking platform with global coverage. With user consent, we are powering the financial industry with real-time verifications from bank, utility, and government sources.
- Working on core product and developing new features that will impact the users.
- Handled client side interaction of live sites.

TO THE NEW | SOFTWARE ENGINEER

Feb 2022 - Oct 2023 | Noida, India

REACT JS | EXPRESS JS | NODE JS | POSTGRESQL | REDUX | REDUX TOOLKIT

- Worked as frontend developer on HIRING MEDIATOR tool (a web app to conduct interviews).
- Simplified code structure, improved user interface, developed features as per given requirements using agile methodology.
- Integrated UI with ChartJS library to provide dashboard, provided reports to HR in both Excel, CSV using saveExcel to see panel slot availability
- Worked on GROWTH PORTAL (a web app for appraisal and rating review for employees) developed new user interface using NEXT JS, MATERIAL UI. Uses Redux Toolkit for better code structure and reduces boilerplate.

INDUS VALLEY PARTNERS | ASSOCIATE IMPLEMENTATION ENGINEER

Aug 2021 - Dec 2021 | Noida, India

JAVASCRIPT | REACT JS | SQL | SSRS | POSTMAN

- Worked as an Implementation Engineer handled pipelines for reports managed ETL flow,
- Design pipelines along with working on report delivery systems, worked on SQL and SSRS, SSIS tools.

PROJECT(S)

NEWS.IO

- Developed an News App that uses 3rd party API with React Bootstrap and provided news around the World with different categories. Implemented Pagination, Custom Hooks, Shimmer UI.

BUZZ

- Developed a social media platform using the MERN stack, featuring user-friendly CRUD operations for posts and a friend request system.
- Implemented user profile functionalities, including editing and viewing profiles, to enhance the user experience on Buzz.
