PROFESSIONAL SUMMARY

Software Developer with hands-on trainee experience in full-stack web development using Angular, React, Node.js, and Laravel. Skilled in building scalable applications, implementing role-based access, and optimizing workflows. Strong background in frontend and backend development, automated testing, and cloud environment management. Seeking to drive innovation and growth in dynamic teams.

EXPERIENCE

Software Developer Trainee
Brain Technosys Pvt. Ltd.

📅 Jan 2024 - Aug 2024   📍 Noida, India

- Led frontend development of a CI/CD-based Document Management System using Angular and Material, enabling creation of custom loan service domains with role-based modules.
- Built an admin portal for onboarding customer sites, integrated Jest testing, and monitored production via Azure.
- Developed a full-stack Project Management System (Laravel) with task tracking, status reports, and role-based access, reducing project turnaround time by 30%.
- Built React.js frontend for a Restaurant Management app using Redux and react-router-dom, optimizing performance with lazy loading.
- Designed backend APIs in Node.js for restaurant analytics, view tracking, and personalized recommendations.

CERTIFICATIONS

- Explore Web Development with Angular ↗
- TypeScript Essential Training ↗
- JavaScript Essential Training ↗

TECHNICAL SKILLS

- **Languages:**
  TypeScript, JavaScript, Java
- **Frameworks / Libraries:**
  Angular, React.js, Node.js, Laravel, Tailwind CSS, ShadCN
- **Database :**
  MySQL (used with Laravel ORM – Eloquent), MongoDB
- **Deployment / DevOps Tools:**
  Azure, Render, Git, GitHub
- **Testing / APIs:**
  Jest, Postman, REST APIs

EDUCATION

Master of Computer Application
KIET GROUP OF INSTITUTIONS

📅 2022 - 2024   📍 Delhi-NCR, India

Bachelor of Computer Application
SMS LUCKNOW

📅 2019 - 2022   📍 Lucknow, India

PROJECTS

JobAng ↗   February 2025
React.js, Node.js, Express, MongoDB

- Developed a responsive job portal for freshers with role-based access (candidate, recruiter)
- Implemented job search with filters, real-time application tracking.
- Secured backend with JWT authentication and optimized API performance for faster load times.

ClassyShop ↗   October 2024
Laravel, JavaScript, MySQL

- Built a complete e-commerce system with user-side shopping and admin-side product management
- Integrated features like dynamic cart, user tracking, and secure admin dashboard for full CRUD operations.

SOFT SKILLS

- Ownership Mindset
- Team Collaboration
- Problem-Solving

LANGUAGES

- English - Professional Proficiency
- Hindi - Native
