JAVA/J2EE DEVELOPER

Jadavra Hiten B

Bangalore Karnataka

+91 6351220752
Email ID:- jadavrahiten07@gmail.com

PROFESSIONAL SUMMARY:-

Experienced Java Developer with 2.1 years of expertise in web application development using Spring Boot, Hibernate JPA, microservices, and core Java. Proficient in optimizing code, creating secure data exchange DTO classes, implementing MVC architecture, and integrating APIs, including email, PDF, and Geospatial Queries. Skilled in agile Scrum processes and adept at JUnit unit testing. Eager to take on a challenging role to apply my skills and drive organizational growth.

SKILLS:-

- Core Java / Java 8
- Spring Boot
- Hibernate JPA
- Rest API / Web Services Development
- Microservice
- Spring MVC
- Spring Security with JWT
- Third-party API Integration
- Third-party Libraries for Reports/PDF
- Payment Gateway Integration
- MySQL / MongoDB Database
- Git & Git hub
- Testing API Using Postman
- Swagger
- Lombok
- Model Mapper
- IntelliJ IDEA/STS

WORK EXPERIENCE:-

Designation :- Java Developer

Company Name:- Lineaje Inc |2022 - Present

Total Experience: 2.1 Years

Worked as a Java developer and Software Developer at Lineaje inc with experience of 2.1 years

PROJECT DESCRIPTION:-

Project Name: HomeFinder
Duration: 2.1 Years
Team Size: 7
Process: Agile Scrum Process
Tools used: Spring tools suite, IntelliJ IDE, Post Man, Swagger, Mongo DB, Git Hub
Technology: Core Java, Java 8, Spring boot, Spring MVC, Hibernate JPA, Spring Token-based Security

> ➢ Engineered a cutting-edge HomeFinder platform enabling seamless interactions between homeowners and buyers/renters; provided property owners with a robust listing service, delivering a comprehensive solution for both individuals and real estate professionals.

My Contributions to this Project:-

- **Developed a robust MVC web application using Spring Boot, Hibernate JPA, and Java 8, ensuring adherence to MVC architecture principles.**
- **Utilized Java 8 features such as Stream API for efficient data processing and manipulation**
- **Architected and developed microservices using Spring Boot, facilitating modularization and scalability of the application.**
- **Designed and implemented domain-driven microservices architecture, ensuring separation of concerns and maintainability.**
- **Implemented RESTful web services, including controller, service, and repository layers using Spring Boot, facilitating seamless communication between the frontend and backend.**
- **Developed entity classes using Hibernate JPA, ensuring efficient database interactions and data persistence**
- **Integrated third-party APIs for SMS and Email services, enhancing the application's communication capabilities**
- **Integrated and tested payment gateway functionality, ensuring secure and seamless online transactions.**
- **Implemented authentication and authorization mechanisms using Spring Security with JWT tokens, ensuring secure access to resources.**
- **Integrated third-party libraries for generating Excel/PDF reports, providing users with customizable and exportable data representations.**
- **Utilized Lombok and Model Mapper libraries to reduce boilerplate code, enhancing code readability and maintainability.**
- **Debugged and resolved defects using IntelliJ IDEA, ensuring the application's stability and reliability.**
- **Conducted API testing using Postman, verifying the functionality and performance of RESTful endpoints.**
- **Utilized Swagger for API documentation, providing comprehensive documentation for developers and stakeholders.**

- **Collaborated with cross-functional teams including developers, testers, and business analysts to ensure project milestones were met within specified timelines.**
- **Maintained clear and concise documentation for codebase, APIs, and system architecture, facilitating future maintenance and enhancements.**

Languages:
- English (fluent),
- Hindi (fluent),
- Gujarati (Mother tongue)
