Experience

Sep 2022 - Present
Compendious Med Works Pvt Ltd
Front End Developer

During my tenure at CMW, I had the opportunity to work on various projects like **Onlinedocs, Gift a place, Brownie Point, Readupnext etc**. This experience allowed me to develop strong skill set while contributing to the success of the team and organization. These projects have given me the opportunity to work with team and independently, showcase my creativity, and develop a versatile skill set.

Key Projects :

Onlinedocs.us

This website basically provides mental health care virtual service. Users can coordinate with Indian doctors and USA doctors.

Features:
- It has 6 main pages and signup login as well.
- Inside the treatment, there are 12 types of treatment. User can choose as per requirement.
- User can see doctors slots in counselor page
- User can book slots as per remaining slot time.
- User can read blogs for more information about mental health care.
  - And much more...

Areas of responsibility:
- Developed home page of the website.
- Developed login and signup page.
- Resolved overflow of whole devices.
- Applied media query to make it more responsive on multi devices.
- Colored right side scroll bar of website.
- Made fully animated user friendly, sections come smoothly while scrolling.
- And much more...

I have worked on following projects as well:
