Jaipur(RJ)

Objective

To leverage 2.3 years of diverse experience gained at Infosys, aiming to contribute my expertise in a challenging role. I seek to continue my professional growth by collaborating with a dynamic team, utilizing my skills to drive innovation, efficiency, and contribute to the success of the organization.

Professional Experience

Quality Assurance engineer   *June 2022 - Present*
Infosys Limited

- Developed and executed comprehensive test plans and test cases to identify defects and ensure product quality.

- Collaborated with cross-functional teams to analyze product requirements and specifications.

- Results-driven automation tester with expertise in designing and implementing automated test scripts using Selenium

- Tracked and reported defects using tracking tools, working closely with the team to resolve issues.

- Designed and implemented performance test scripts to assess application scalability.

- Utilized performance testing tools such as LoadRunner and JMeter to measure system response times.

- Analyzed performance test results to identify bottlenecks and areas for improvement.

Education

B. TECH (CSE)   *2017 - 2021*
BSA College of Engineering and Technology (AKTU)

Intermediate   *2016 - 2017*
CSRV Vidhya Ashram (CBSE Board)

Projects

STRYKER   **April 2023 - Present**

Developed a detailed performance test plan outlining specific objectives, scenarios, and success criteria for SAP and secure web modules. Created test data for the scripts using transaction codes (T-codes) in the SAP module. Developed scripts for both SAP GUI and web-based HTTPS transactions, optimizing scripts for efficiency and accuracy through parameterization, correlation, and error handling.

MOLINA HealthCare   **Aug 2022 – Feb 2023**

Developed and executed automated test scripts using Selenium to ensure the functionality and performance of Molina Healthcare applications. Collaborated with cross-functional teams to gather requirements and design test cases that align with project goals. Conducted regression testing to identify and resolve defects, enhancing the quality of the software before deployment.

Skills

- Python
- LoadRunner
- TestNG
- Postman

- SQL
- JUnit
- PyTest
- Selenium
