📁 PROJECTS

The Blood Alliance Camp

The website aimed to provide a platform for users to access information about blood donation camps, register as donors, and connect with relevant organizations. This project showcased skills in front-end development with HTML and CSS, and server-side scripting using PHP.

The Fitness-Management Web Application

Crafted front end using HTML, CSS, and JavaScript. Leveraged Node.js for server-side rendering, showcasing adeptness in web design and front-end development while back-end was done using MongoDB, Express.js and React.js .

🧠 SKILLS
