## PROJECTS

---

**File sharing app** 🔗 | *HTML , CSS , JavaScript , React*

- The file-sharing application is designed to enable users to upload, store, and share files securely and efficiently. This application leverages MongoDB for data storage, Express.js and Node.js for the backend server, and React for the frontend interface..
- Users can upload files of various types (documents, images, etc.).
- used React.js , Node.js , Express.js and MongoDB
- Files are stored on the server with metadata saved in MongoDB.

**IMDB App** 🔗 | *HTML , CSS , JavaScript , React , API's*

- Internet movie database application using frontend.
- Displays a list of movies. Shows detailed information about a specific movie.
- Real time data is fetched from the API.
- Used **React.js** with addition of **material UI**

**3D Portfolio** 🔗 | *HTML , Tailwind CSS , JavaScript , React , Three.js*

- Developed an interactive 3D portfolio using React, Three.js, and Tailwind CSS, showcasing personal projects and skills with a dynamic, immersive user interface.
- Implemented advanced 3D animations and visual effects to enhance the user experience, utilizing Three.js for rendering and manipulating 3D objects within a React framework.
- Integrated smooth navigation through 3D scenes using React components and Three.js controls.
- Managed state and user interactions effectively with React, providing a seamless user experience.

## EXPERIENCE

---

**Keen Able Computers Pvt Ltd** | *Frontend Developer*

**June 2024 - current**

- Developed frontend components using ThreeJs and ReactJs.
- Designed user interfaces using Figma based on client requirements.
- Gained proficiency in Linux commands and delivered presentations.
