EXPERIENCE

Frontend Developer

Tech Matpatra Pvt. Ltd.

Feb 2024 – Present

Gurugram , HARYANA

- Design: Translate wireframes and prototypes into functional, interactive code.
- Development: Use HTML, CSS, and JavaScript, Next.js, React.js, to structure content, apply styles, and add interactivity.
- Optimization: Optimize websites for different formats, such as mobile and desktop.

PROJECTS

Matpatra Community For Admin | *Html, Css, Javascript, React.js, Next.js*

Feb 2024 – Present

- Developed and maintained a dynamic, community-driven platform, Matpatra for Community, focusing on user engagement and interactive experiences using React, Next.js, and CSS.
- Enhanced user interfaces to provide a seamless experience for updating personal details and managing community activities.
- Implemented responsive design principles to ensure optimal performance across devices, enhancing accessibility and user satisfaction.

Matpatra.com | *React.js, Next.js , Tailwind Css,*

June 2024 – Present

- Developed and managed the Matpatra.com platform, a comprehensive website for company information, news, videos, and leader information, using React, Next.js,
- Designed and developed responsive user interfaces for displaying detailed profiles of MPs, MLAs, and other key figures, enhancing user engagement with leader information.
- Implemented dynamic filtering and sorting features in the frontend to provide users with an intuitive and customizable experience for browsing leader data.
- Integrated social interaction features like liking, commenting, and sharing articles, improving user engagement and interaction across the platform.

Data Secure Pvt. ltd. website | *Wordpress*

Nov 2023 - Jan 2024

- The website features a minimalist, responsive design that looks great on all devices, from desktops to smartphones. The use of whitespace, bold typography, and engaging visuals ensures that our projects take center stage.
- The site is built with SEO best practices in mind, ensuring that our projects reach the widest possible audience. Meta descriptions, alt tags, and keyword-rich content are all strategically implemented.
