React Developer with a passion for designing visually appealing and user-friendly web interfaces. I have a solid foundation in React, Tailwind CSS, and database management, and I'm excited to apply my academic learning and practical skills in a professional setting. I am eager to contribute to innovative and engaging web projects.

### Live Projects

#### ✦ Dagna De

- I developed and launched Dagna De, a charity website aimed at providing resources and support to underprivileged communities. The platform serves as a hub for donations, volunteer opportunities, and community engagement, fostering positive social change.
- Technology usage - React, Tailwind CSS, NPM Packages, Integration with Context Api.
- Website Link : - <https://dagna.de/>

#### ✦ World-Class-Foods

- Developed and maintained the World-Class-Foods website, implementing responsive UI components using React and Tailwind CSS. Integrated RESTful APIs for seamless data flow and enhance user experience.
- Technology Usage- React Js, Tailwind, (link - <https://aiwizelabs.com/>)

#### ✦ Svaak Software

- I established an IT sector website specializing in website and application development services. As a frontend developer, I focused on creating engaging and user-friendly interfaces, ensuring seamless user experiences across various platforms and devices.
- Technology use - React Js, Tailwind CSS, NPM Packages etc.

### Experience

- Working 6 months at **Svaak Software Technologies Pvt. Ltd.** as a Frontend Developer in Sector-63, Noida. Dec-2023 - Till Date.
