New Delhi

## SUMMARY

Experienced Senior Quality Engineer with 3+ years in automation and manual testing, specializing in building scalable test frameworks for web applications using Selenium WebDriver and TestNG. Skilled in Agile environments, collaborating with cross-functional teams to deliver high-quality solutions. Experienced with Virtuoso QA for efficient test automation, optimizing test execution and improving coverage. Committed to delivering high-quality software through effective testing practices and continuous improvement.

## SKILLS

**Programming Skills:** Java

**Testing Frameworks:** Selenium, TestNG

**Testing Tools:** Virtuoso QA (Low-Code Automation), Postman, Rest Assured

**Build Tools:** Maven

**Database:** MySQL, DBeaver

**Version Control:** Git, GitLab, GitHub

**Project Management & Collaboration:** JIRA, Confluence, Trello

**Reporting Tools:** Extent Reports, TestNG Reports

**IDE:** IntelliJ IDEA, Eclipse, Visual Studio Code

**Methodologies:** Agile, Scrum, Waterfall, Test-Driven Development (TDD)

## WORK EXPERIENCE

Senior Quality Engineer, CloudKeeper Pvt Ltd, Noida

Feb 2021 - Present

### CK AZ

#### E-commerce Platform (Automated Testing with Selenium)

- Developed and maintained test automation frameworks using **Selenium WebDriver** and **TestNG**, following **TDD** and **POM** design patterns for easy scalability and maintenance.
- Collaborated with cross-functional teams to define testing needs, ensuring 100% requirement coverage and alignment with business objectives.
- Executed **functional** and **regression tests**, providing detailed reports using TestNG to monitor application health.
- Conducted API testing using **Postman**, ensuring the backend services were working correctly and efficiently.
- Managed version control with **Git** and **GitLab**, ensuring smooth collaboration and code consistency.

### CK Lens (Marketplace)

#### Marketplace Platform for E-commerce (Automated Testing with Virtuoso QA)

- Automated test cases using **Virtuoso QA**, a low-code tool, to quickly create and scale tests for key platform workflows.
- Conducted **end-to-end testing** to validate platform functionality, ensuring an optimal user experience.
- Generated clear test reports with **Extent Reports**, helping the team track progress and make informed decisions.
- Managed test case documentation in **Confluence**, keeping everything organized and aligned with business goals.
- Performed continuous regression testing to ensure updates did not impact existing features.
- Tracked defects and progress using **JIRA**, helping the team resolve issues quickly and stay on schedule.

AWARDS AND RECOGNITION

- 🏆 **Spot Award:** Demonstrated “**Complete Ownership**” in Q1 FY24.
- 🏆 **Impact Award:** Recognized as the “**Most Impactful Contributor**” for delivering high-quality work in Q3 FY24.
- 🏆 **Appreciation Award:** Acknowledged for active participation in **Agile Fundamentals Training**.
- 🏆 **Core Value Award:** Honored for excellence and continuous improvement in task execution in Q2 FY23.

EDUCATION

🎓 <b>Master of Computer Application</b>	2018 - 2021
JAGAN INSTITUTE OF MANAGEMENT STUDIES, GGSIPU	
🎓 <b>Bachelor of Science (B.Sc.) in Physical Sciences</b>	2015 - 2018
KALINDI COLLEGE, DELHI UNIVERSITY
