- Successfully resolved 40% of reported bugs, including tooltips, file upload/download issues, and other critical functionalities, ensuring a smoother platform operation.

EDUCATION

Bachelor's of Technology
Abdul Kalam Technical University

09/2019 - 09/2023   *74.3%*

SKILLS

Javascript   Typescript   HTML   CSS

Angular   React   Redux-toolkit   RxJS

Bootstrap   Ng-Bootstrap   MaterialUI

Ng-Materal   Tailwind   OOPS   Axios

Firebase   RESTful   Git & Github   POSTMAN

FlexBox

PERSONAL PROJECTS

Code Compiler
- Developed a versatile Code Compiler and Execution Platform allowing users to seamlessly write, compile, and execute code in multiple languages within a unified interface.
- **Features** :- Multi-Language Support , Live Code Execution , Dynamic Theme Selection

ChatGPT Replica
- Developed a ChatGPT Replica enabling users to input queries and receive real-time solutions
- **Features :-** Real-time Response , Query Processing , RESTful API , Axios , Problem Solving , OpenAI Docs
- **Blog :-** https://medium.com/@kushaldobhal2001

Admin Dashboard
- Developed a dynamic Admin Dashboard leveraging cutting-edge technologies and best practices and Perform all CRUD operations
- **Features** :- Firebase API Integration , JSON Local Server Integration , Reusable Components , RESTful API , CRUD

Brainiacs Learning App
- Developed a dynamic learning application, Brainiacs, to facilitate personalized education experiences. Leveraged Firebase Storage for seamless video uploads and user-centric content consumption.
- **Features** :- Video Content Repository , Responsive Design , Authentication and Authorization , AuthGuard , Firebase Storage

SOFT SKILLS

Communication Skills   Problem-Solving

Attention to Detail   Client Interaction
