Summary

Enthusiastic and skilled Full Stack Developer with experience in building dynamic, scalable, and high-performance web applications. Proficient in modern technologies including **React.js**, **Node.js**, **Express.js**, **Strapi**, **PostgreSQL**, and **Next.js**. Strong expertise in both **frontend and backend development**, with a focus on creating seamless user experiences and efficient database management. Passionate about learning new technologies and continuously improving code quality. Adept at working in collaborative environments and handling complex problems in a fast-paced industry.

Education

Guru jambheshwar university of science and technology

October 2020 - June 2024

Bachelor of Technology in Computer Science (CGPA of 6.8)

Haryana, India

Experience

Full Stack Developer

October 2024 – Present

Vocso Technologies Pvt Ltd

Faridabad, India

- Implemented a feature for College18, a college browsing platform using **Next.js** and **Strapi**, that displays colleges within a 100 km radius while excluding those from the same city, enhancing user navigation and discovery.
- Contributed to LMS Development: Designed and implemented an admin panel for statistics visualization and efficient management. Created features for question management and video-based learning systems, enhancing the learning platform's usability.
- Mentored team members, ensured effective collaboration, and maintained coding standards across the project.

Projects

Rodics LMS | *Strapi, Next.js, PostgreSQL, PgAdmin*

- Developed a role-based LMS with authentication and authorization for trainers, students, and admins
- Implemented course and assignment management, including a structured question bank for assessments
- Built an admin dashboard with real-time analytics on user engagement and course progress
- Integrated video streaming support and track course progress

ShopMaster | *ReactJS, NodeJS, Express, MongoDB, Redux Toolkit, RTK Query, TypeScript* | [Link](#)

- Developed a comprehensive e-commerce platform featuring secure login, dynamic home page with advanced filters, and Stripe payment integration
- Includes an admin dashboard for managing users, products, and analytics with integrated charts

InkSpire | *Next.js, ReactJS, MongoDB, HTML, CSS, JavaScript* | [Link](#)

- Developed a blog website enabling users to upload and read blogs with secure authentication, MongoDB for storing users and posts, and API integration
- Utilized Next.js for server-side rendering (SSR) and client-side rendering (CSR) for optimized performance and seamless user experience

Achievements

- Completed **400+** data structures and algorithms questions, showcasing strong problem-solving skills.
- Developed and deployed multiple web projects using modern technologies like ReactJS and NodeJS.
- Demonstrated commitment to continuous learning and improvement through hands-on project work and self-directed study.
