LinkedIn: [romel-kumar-verma-67904b309/](https://www.linkedin.com/in/romel-kumar-verma-67904b309/)

Location: Bhopal [MP]

Career Objective:

- To work in a leading organization where I can continuously learn by applying my software development skills and experience.

Experience Summary:

- I am working as a MERN-stack developer with technologies like React.js, Next.js, Node.js, JavaScript, MySQL, and MongoDB.
- Prepared Figma designs for the project.
- Experienced in Google Cloud Platform and Amazon Web Services (EC2, Load Balancer, SNS, IAM).
- Experienced in SQL and NoSQL databases like MongoDB, MySQL.
- Containerization using Docker.
- Working with Source Code Management (Git).
- Configured S3 for image uploads.

Experience Profile :

- Currently working as MERN-Stack Developer at Micro Technologies, Bhopal (Feb 2023 to till date)

Project Profile:

1) TP Bazar

Description:

- **Technologies:** React.js, JavaScript, MySQL, Node.js, Rozerpay
- Created a software called TP Bazar is an E-commerce platform, which manages e-commerce details, employee details, and allows user can buy the product according to their need like amazon.

2) [HR Management:](#)

Description:

- Technologies: React.js, Nodejs, MySQL.
- An effective HR management system is used to manage the work process and organizational responsibilities of human resources and other departments..

3) [Littera-Learning-Platform:](#)

Description:

- **Technologies:** React.js, Node.js, MySQL.
- We used this project to provide online training and manage sessions. Both employees and participants registered on the platform. We managed the scheduling of sessions for each faculty member and handled all related details. Additionally, we managed any documents shared by the faculty. If a student missed any training, they could access the uploaded session later
