EXPERIENCE

Software Developer at SSNTPL

I've developed and maintained JavaScript and Laravel-based web apps, achieving a 20% boost in website performance and a 15% increase in user engagement over 6 months.

-I've implemented 30+ new features, collaborated with a 10-person team to deliver 5 successful products, managed a 50,000-record database with 99.9% uptime, and developed RESTful APIs handling 1 million+ monthly requests.

-I'm well-versed in Agile methodologies, delivering projects 10% faster with improved team productivity.

-Gained experience in database management, RESTful API development, and version control.

-Successfully delivered a project that increased user engagement by 25% through implementing new features and optimizations.
