OBJECTIVES

"Dedicated and skilled JavaScript developer with two years of hands-on experience in web application development. Committed to delivering high-quality, efficient, and user-friendly solutions. Seeking an opportunity to contribute my expertise and passion for coding to a dynamic team."

WORK EXPERIENCE

Software Engineer
CitiusTech Healthcare Technology Pvt. Ltd.
November 2021 to June 2023

- Worked with cross-functional teams to create and manage web applications with the goal of providing optimal functionality, responsiveness, and user experience.
- Implemented modern web technologies, including HTML5, CSS3, TypeScript and JavaScript frameworks React & Angular, to create interactive and visually appealing user interfaces.
- Created and maintained RESTful APIs to enable data interchange between front-end and back-end applications.
- Conducted code reviews, identified performance bottlenecks, and optimized code for improved speed and efficiency.
- Debugged and resolved complex issues, ensuring seamless application functionality and a positive user experience.

In my Zoom clone, I tried to cover all of Zoom features. Users can register, log in, create a meeting, Join a meeting with or without video. In this Project HTML, CSS, Material UI CSS, Angular, Node, Express, MongoDB ,Mongoose and have been used.

SKILLS

Programming Languages
- JavaScript
- HTML5
- CSS3
- TypeScript
- Java core

Tools
- Visual Studio Code
- Chrome DevTools

Version Control
- Git
- Github

Front-End Technologies
- React
- Angular
- Vie.js

Back-End Technologies
- Node.js
- Express.js

Problem Solving
- Debugging
- Code Optimization

Testing
- Jasmine
- Cypress

Database Management
- MySQL
- MongoDB
- Mongoose
