Higher Secondary

2017 **G-plot Vivekananda Vidyamandir(H.S)**, West Bengal, India
Secondary

EXPERIENCE

RUNTIME SOLUTION PRIVATE LIMITED (January, 2023- PRESENT)

At Runtime Solution Private Limited since January, 2023, I've been instrumental in developing cutting-edge software solutions, harnessing. My role involves leading the development of innovative web applications, ensuring seamless integration of frontend and backend technologies. I actively contribute to architectural discussions, emphasizing robust security measures and optimizing application performance. Highlights include spearheading projects from conception to deployment, adhering to strict timelines and quality standards. My tenure at Runtime Solution showcases my ability to excel in a fast-paced environment, delivering impactful solutions while collaborating effectively with cross-functional teams.

PROJECT

Alizz Banking Application

Technology: Java, Spring Boot, Hibernate, MySql .

Developed efficient server-side logic and RESTful APIs using Java, Spring Boot, Hibernate, and MySQL to ensure secure and seamless banking operations.

Implemented robust authentication and authorization mechanisms to enhance data security.

Optimized database queries and transactions, improving system performance and scalability.

Invespy Realistic Project

Technology: Java, Spring Boot, Hibernate, PostgreSQL.

Designed and implemented scalable server-side logic with Java, Spring Boot, Hibernate, and PostgreSQL.

Integrated automated email notifications and efficient database interactions, improving system performance and user experience.

SKILLS:-

Java, Spring Boot, Hibernate, JPA, Spring Security, Socket.io, Express.js, React.js, Docker, Html, Css, MongoDB, MySQL, SQL, PostgreSQL.

TOOLS

IntelliJ IDEA Community, IntelliJ IDEA Ultimate, Visual Studio, Git Bash, Postman, Swagger Open UI.
