Manav Rajput

I'm a Java Software Developer with 1.6 years of experience. I build strong and reliable applications using Spring Boot. I'm skilled in Kafka and Redis for handling data efficiently. I ensure top-notch performance by testing with tools like JMeter. I work on database design, integrate payment gateways and APIs, and keep your data secure from threats like SQL injection.

Work Experience

Software Developer, Benepik Technology Private Limited, Gugrgaon

Jan 2023 - Present
- Developed and maintained Java-based web applications using Spring Boot framework.
- Utilized Kafka for real-time data streaming and Redis for caching, improving application performance.
- Conducted stress testing and load testing using JMeter, ensuring application scalability and reliability.Led a team in successfully navigating a complex audit, ensuring compliance with industry regulations.
- Collaborated with the database team to design and optimize database schemas for efficient data storage and retrieval.
- Integrated payment gateways and third-party APIs to enable seamless transactions and enhance user experience.
- Implemented security measures to prevent SQL injection and validated payloads to ensure data integrity.

Software Developer, Lagaland

June 2022 - August 2022
- Demonstrated ability to design and create APIs.Conducted internal audits, identifying and rectifying discrepancies in financial records.
- Gained practical experience in storing and retrieving data from MySQL databases, ensuring efficient data handling and retrieval.

Educational Background

Master's In Computer Application(MCA), Computer Science
University Of Petroleum and Energy Studies
Aug 2021 - May 2023
- Specialization in Cyber Security.

Bachelor's in Information Technology (Bsc(IT)), Computer Science
Modern Institute Of Technology
Aug 2018 - Aug 2021
- Specialization in Cyber Security.

Skills

Technical Skills
- Programming Languages: Java
- Frameworks: Spring Boot
- Technologies: Kafka, Redis
- Testing Tools: JMeter
- Database: SQL
- Integration: Payment Gateway, Third-party API
- Security: SQL Injection Prevention, MITM attack Prevention, VAPT (Vulnerability Assessment and Penetration Testing)

Languages
- English (Proficient)
- Hindi (Fluent)

Certification/Short Courses
- CyberSecurity Cisco - 2022
- CyberSecurity Tools And Cyber Attacks
- Networks And Cisco Devices

Awards and Achievements
- Best Debut Award of the Year
- Bug Bounty Award
