WORK EXPERIENCE

Trainee-Software Engineer

AUG 2023

As a Frontend Developer at Opkey, I played a key role in crafting responsive and visually engaging web applications using Angular and Kendo UI. My responsibilities included integrating APIs seamlessly, optimizing application performance, and resolving UI issues for an enhanced user experience.

SKILLS SUMMARY

- **Technical Expertise:** Proficient in Angular, JavaScript, CSS, and HTML, with a strong foundation in web development and UI/UX design.
- **Design Tools:** Skilled in using Figma for UI/UX design, demonstrating a keen eye for aesthetics and user experience.
- **Project Experience:** Developed a GitHub User Profile Search tool and a Task Management App, showcasing the ability to create engaging and functional applications using modern web technologies.
- **Educational Background:** Currently pursuing a Masters in Computer Application at SAIMT, with a Bachelor of Computer Application from the same institution.
- **Certifications:** Holds certifications in HTML5 & CSS3, UX Design, and UI Design from reputable platforms like Udemy and Growth School.
- **Continuous Learning:** Committed to continuous improvement and learning in the field of web development and design.
- **Adobe Designathon:** Attended adobe designathon and participated in making a app on provided problem statement.

PROJECTS

QuickNotes (Angular)

APR 2024

Developed a Quick Note web app with Angular and Node.js, allowing users to create sticky notes, write journals, and draw, while ensuring security measures and an intuitive design for a seamless user experience. Additionally, include functionality for downloading handwritten notes and drawings. This project is under development.

Advise (Angular)

MAR 2024

I have developed marketing agency website showcases our services, client successes, and expertise in driving results. It features a user-friendly interface with clear calls-to-action for potential clients to contact us or inquire about services. Additionally, the admin panel integrates robust authentication and authorization mechanisms to secure access and manage sensitive data effectively.

GitHub User Profile Search (Fetch API)

JUN 2023

I have developed a tool that searches for GitHub user profile information. I have used the fetch API to retrieve the user's information and used the Dom API to alter the elements to display the information on UI. I have used HTML, CSS and JavaScript to develop this tool.

EDUCATION

MASTERS IN COMPUTER APPLICATION (MCA) (SAITM)

2023 - PRESENT

Overall percentage: 78.50%

BACHELOR OF COMPUTER APPLICATION (BCA) (SAITM)

2020 - 2023

Overall percentage: 78.50%

INTERMEDIATE (TERESA INTERNATIONAL ACADEMY, PATNA)

2018 - 2020

Percentage: 77.20%

MATRICULATION (THE RAMAKRISHNA VIVEKANANDA VIDYAMANDIR, JHARKHAND)

2017 - 2018

Percentage: 88.00%
