EXPERIENCE

Software Developer

23rd May 2022 to 4th July 2024

Armantec Private Limited.

Noida, India

- Developed and maintained scalable micro services architecture using Java Spring Boot, resulting in improved system performance and flexibility.
- In my Java Spring Boot experience, I've built effective RESTful APIs and utilized micro services architecture, playing a pivotal role in project success.
Skilled in designing and implementing software solutions that meet industry standards, optimizing efficiency and performance.
- Oversaw the management of a robust MySQL database, ensuring the maintenance and organization of a vast portfolio comprising over 10 million products, while optimizing performance and scalability
- Utilized Git as the primary version control tool, ensuring efficient collaboration, code management, and version tracking across development projects
- Contributed to code reviews and provided constructive feedback to team members.

PROJECTS

District Health Management Information System (DHMIS) | Java , Git , Html , Css , Liferay , MySQL , Rest API

* The DHMIS policy focuses on seven (7) high level priority areas, namely: Health Information Coordination and Leadership;

Indicators; Data management, Data security; Data analysis and information products; Data dissemination and use and Health information system resources

* Developed a comprehensive full stack application utilizing Java, Spring Boot, and a Microservices-based architecture. Employed MySQL for the backend database, and jQuery for the frontend interface.

* Worked closely with teams consisting of developers, designers, and business stakeholders to gather requirements, plan project milestones, and deliver solutions on time.

Central Public Works Department (CPWD) – Government Project | Java , JSP , Html , Css , Liferay , MySQL

* The CPWD, under the Ministry of Urban Development now MoHUA (Ministry of Housing and Urban Affairs), deals with buildings, roads, bridges, flyovers and other complicated structures including stadiums, auditoriums, laboratories, bunkers, border fencing and border roads (hill roads).

* Developed a comprehensive full stack application utilizing Java, Liferay , Spring Boot, and a Rest-API .
Employed MySQL for the backend database, and jQuery for the frontend interface

* Worked closely with teams consisting of developers, designers, and business stakeholders to gather requirements, plan project milestones, and deliver solutions on time.

TRAINING

Summer Training – Softpro India Pvt. Ltd. Lucknow – June 2019 to Aug 2019

Java Full Stack – Chetu Pvt. Ltd. Noida – June 2020 to Apr 2021

Java Expert – Ducat India Pvt. Ltd. Noida – May 2021 to Dec 2021

EDUCATION

Government Polytechnic Bhadohi , Auari
Diploma in Computer Science Engineering

Bhadohi , U.P
Aug. 2017 – Aug 2020

C.B Inter College Azamgarh
Secondary School

Azamgarh , U.P
June. 2015 – June 2017

TECHNICAL SKILLS

Skills : Java , Spring Boot , MySQL , Liferay , GIT, Hibernate , Rest API, HTML , CSS , Bootstrap , JSP , JavaScript , Git
