Work Experience

Freelancer & Tutor   **2023 - Present**

- Successfully delivered 8+ websites to clients, managing 15+ projects independently using WordPress CMS.
- Provided academic support to 10th-standard students through tutoring

eCommerce Manager | (Strictly Organics LLP, Dehradun)   **Jan 2021 - Dec 2022**

- Independently built a company website on WordPress, showcasing end-to-end development skills.
- Oversaw orders on multiple platforms, ensuring smooth transactions and improved customer satisfaction.

Production Manager | (Alpha Packaging, Dehradun)   **Oct 2019 - Jan 2020**

- Managed production operations, ensuring efficiency and quality-driven outcomes.
- Achieved 30% reduction in production waste through streamlined processes, optimizing resource utilization.

Projects

NetflixGPT (React JS | Tailwind CSS | Redux Toolkit | Firebase | Gemini API)   **LIVE LINK**

- Developed a Movie Recommendation web App using React JS with Vite, integrating Gemini API for intelligent recommendations and Firebase for secure authentication.
- Utilized TMDB API for fetching movie data, providing users with personalized movie suggestions based on their preferences and interests.

Portfolio Website (React JS | Tailwind CSS | React Hook Form | EmailJS)   **LIVE LINK**

- Built a responsive portfolio website using React JS and Tailwind CSS, showcasing skills, projects, experiences, and contact information.
- Implemented React Hook Form for form validation, React Toastify for user notifications, and EmailJs for sending emails directly from the frontend.
