SUMMARY

An enthusiastic **Software Engineer** with **1 year 4 months of experience**, proficient in **Java, Spring Boot**, and **MySQL**. Skilled in building scalable backend systems using Java and Spring Boot, with strong problem-solving abilities and a quick learning curve.

SKILLS

- **Languages & Tools:** Java 8, SQL, Git, Maven
- **Framework:** Spring Boot,
- **Databases:** MySQL, Oracle
- **Concepts:** RESTful APIs, Microservices

WORK EXPERIENCE

Associate Software Developer | Cyntexa Labs Private Limited, Jaipur

01/2024 – 04/2025

- Developed backend features for a **Billing and Payment Service application**, generating intra-day and EoD billing reports and managing payment processing.
- Designed and implemented business logic using **Java 8, Spring Boot, and MySQL**.
- Collaborated in agile teams for story grooming, sprint planning, and product development.
- Participated in production deployments and monitored logs.
- Managed code versioning with Github and created database schemas for application modules.

PROJECTS

User Management System – Spring Boot, MySQL

Tech Stack: Java 8, Spring Boot, MySQL, Maven

Impact:

- Implemented a well-structured RESTful API for all user-related operations and maintaining it.

Task Management Web Application – Spring Boot, MySQL

Tech Stack: Java 8, Spring Boot, MySQL

Impact:

- Leveraged **Spring Boot and MySQL** to build a robust backend with efficient task storage and retrieval.
- Improved user efficiency by providing a centralized interface for task tracking and deadline management.

EDUCATION

- **B.Tech in Computer Science**, Poornima University, Jaipur — 2021–2024 | CGPA: 7.68
- **Diploma in Information Technology**, Aligarh Muslim University, Aligarh — 2018–2021 | 89.11%
- **Secondary School**, Zenith Public School, Khurja — 2018 | 96%
