Experience

The SKY INFORMATION TECH , Mumbai   **Jan 2025 – March 2025**
Frontend Developer
- Developed frontend features and integrated APIs.
- Improved website performance and user interface.
- Collaborated with the team to develop new features and fix bugs.

Ypsilon It Solutions pvt. ltd. Indore   **April 2024 – Oct 2024**
Frontend Developer
- In this MERN stack project, I worked primarily with React.js for the frontend development, focusing on building a dynamic and responsive user interface.
- I collaborated with the team to integrate React.js with the Node.js and Express.js backend, ensuring smooth communication between the frontend and server.

Education

Bachelor of Technology (B.Tech), Computer Science   **Jawaharlal Nehru College of Technology, Rewa**
2024 - 8.56 CGPA

Projects

E-commerce - ReactJs   **Oct 2024**
- In this e-commerce platform project, I worked as a ReactJS developer, responsible for building a dynamic and responsive user interface.
- Developed components for the homepage, product listing, shopping cart, and checkout flow, integrating them with Node.js backend APIs and ensuring a seamless shopping experience.
- I also optimized the platform for performance and integrated the Razorpay payment gateway for secure transactions.

Task manager - React.js Link   **Sep 2024**
- Developed a responsive task management system using ReactJS for an interactive and dynamic user interface..
- Focused on efficient state management and reusable components to ensure scalability and maintainability of the application.
- Implemented key features like task creation, assignment, prioritization, and tracking to streamline project workflows.

EasyFarm - React.JS Link   **Aug 2024**
- Frontend project aimed at improving farm management and efficiency.
- Provided an intuitive interface for managing and optimizing farming activities.
- Enabled users to track crop growth, manage resources, and analyze farm data.
- Designed to enhance user potential and deliver maximum value through innovative solutions.

Learn Programming Platform - JavaScript, HTML/CSS   **Dec 2023**
- Crafted a responsive and user-friendly interface to improve user interaction and accessibility.
- Developed interactive coding modules and educational tutorials for teaching various programming languages.
- Implemented a quiz system for assessing user progress after completing tutorials, enhancing the learning experience.
- Added syntax highlighting and real-time code execution functionality using JavaScript for hands-on coding exercises.

Certifications

- Mern stack by Universal infomatics
- TCS YEP Training
