

PROFESSIONAL EXPERIENCE

Engineering Manager

J&F

01/2024 - PresentNoida, IN

- Led a team of 12 engineers in developing AI-driven SaaS solutions using Node.js and AWS, achieving a 30% faster time-to-market by optimizing product roadmaps, streamlining workflows, and fostering an innovative team culture.

Tech Lead

C2FO

03/2022 - 12/2023Noida, IN

- Product Leadership: Solved an 8-10 years long pending problem by creating a payment processor using Golang, Python, React.js, and Next.js. Delivered scalable solutions on AWS, Azure, and GCP in a hybrid architecture.
- Efficient Transitions: Directed on-call responsibilities and KT's during product transitions, ensuring 100% readiness and reducing incident response time by 20%. Demonstrated strong leadership in maintaining operational excellence.
- Optimized Workflows: Transitioned deployment pipelines from Azure DevOps (ADO) to GitHub, reducing deployment cycle time by 30% and lowering operational costs by 20%.

Team Lead

GoBOLT Logistics

12/2020 - 03/2022Gurugram,IN

- Team Leadership: Led and inspired a team of 4 engineers, fostering seamless collaboration for SAAS Product.
- Architectural Expertise: Spearheaded the design and implementation of the Bay Management system in Golang, increasing system scalability and driving a 30% increase in revenue through improved operational efficiency
- Technical Visionary: Drove backend development using Golang, Python, and Node.js, delivering innovative features and integrating cutting-edge technologies. Developed key modules such as SO/STO/PO, Freight Orders, and Auction Management

Senior Software Engineer

Knowlarity

06/2020 - 12/2020Gurugram,IN

- Worked on C2C, knowlus, KRM (Python).

Team Lead

Collegedunia.com

06/2018 - 06/2020Gurugram,IN

- Efficient Code Optimization: Enhanced performance and facilitated handling of heavy traffic in Frizza (Python-Django) through code optimization and rearchitecture, resulting in a 40% improvement in system scalability and turning revenue from negative to positive.
- Architectural Vision: Crafted the architecture for KickCash (FLASK), showcasing design expertise and building robust systems that supported business growth.
- Legacy Migration to AWS: Led the migration of the entire system from a legacy provider to AWS, seamlessly integrating third-party components and improving system reliability by 30%.

Associate Software Engineer

InfoBeans

06/2016 - 06/2018Pune,IN

- Early Impact: Joined InfoBeans as a fresher, executing a seamless database migration for a 13-year-old client with custom scripts. Led the integration of Angular2 in developing the complete Hotel Management project for fivestaralliance.

PROFILE SYNOPSIS

**Accomplished Tech Lead** with nearly 9 years of experience delivering end-to-end software solutions, including over 4 years in leadership roles overseeing product development teams. Expertise in **Full-Stack Engineering**, with a focus on **backend development**, architecture, and **proactive problem-solving**. Proven track record in managing **cross-functional teams** in fast-paced startup environments, delivering high-quality solutions on time. Skilled in **agile methodologies**, **team leadership**, and driving project success with a strong emphasis on scalable, efficient, and innovative technologies.

CAREER HIGHLIGHTS

Innovation Recognition at C2FO

High-Five Acknowledgment for Timely Deliveries and Next Gen System Design (Next Gen Writer and CapFIN).

Revolutionizing Payment Integration

Next Gen Generic Payment Writer Development: Slashing Integration Time from Weeks to 1-2 Days

Engineered Frizza's Turnaround

Transforming Non-profitable to Revenue-generating, Elevating Product Portfolio.

AWS Transformation and Integration Success

AWS Migration Leader: Shifting Legacy System, Implementing Seamless Third-Party Integrations.

Geographic Database Migration Excellence

Pat on the Back for Orchestrating 13-Year-Old Client Database Shift to Geographically Distributed Setup at InfoBeans.

TECHNICAL PROFICIENCIES

Docker	Python	GoLang	NestJS
PostgreSql	Redis	ReactJS	GraphQl
NodeJS	AWS	RabbitMq	GCP
Django	Kotlin	Kubernetes	
System Design	Flask	DataDog	
Microservices	Architecture		

EDUCATION

B.Tech(Honours) in IT

Rajasthan Technical University

2012 - 2016Jaipur,IN
