EDUCATION

MCA (MASTER OF COMPUTER APPLICATION)

Jamia Hamdard

10/2020 - 05/2022

8.6 CGPA New Delhi

BCA (BACHELOR OF COMPUTER APPLICATION)

Jamia Hamdard

08/2017 - 10/2020

9.55 CGPA New Delhi

WORK EXPERIENCE

Engineer Nagarro

07/2022 - Present

Gurugram

Tasks

- Working on a real-time, BFSI project that automates and enhances financial services
- Developed two microservices and implemented Kafka to establish a robust real-time messaging system among the
- Worked on Saltdge and Acumatica integration, designed schema and handled responses.
- Integrated Keycloak with our application for optimize and secure user registration processes.
- Utilized GCP for streamlined and efficient logging process
- Technologies Used:** Java, SpringBoot, Spring JPA, Kafka, Postgresql, Hibernate, Keycloak, Git, Angular, PostgreSql

Data analyst intern AI Council

06/2021 - 08/2021

Noida

A subsidiary of Enter Prime Services Pvt. Ltd

Tasks

- Analyzing, preprocessing and Visualizing Data from different domain such as Automobile, Real Estate, Medical, Construction, Retail to extract meaningful information and facts from the data
- Later using these info with mathematical algorithm to build machine learning model which can make prediction on new or unknown data inputs
- The job role also comprises of final model deployment over server and creating user interface for better user experience

RELEVANT PROJECTS

CryptoBankHub

- Designed and implemented a microservices project enabling user registration, bank account management, and crypto transactions using the CoinCap API. Leveraged Netflix Eureka, API gateway, Kafka, and Java Mail for service discovery, routing, events, and realtime communication. Showcased versatility with MySQL, PostgreSQL, and MongoDB for a seamless user experience
- <https://github.com/lamShariff/CryptoBankHub>

WatchStoreWebApp

- Developed a Watchstore MultiMaven module project, establishing a comprehensive backend with Spring Boot. Conducted unit testing and crafted the frontend using Angular. Implemented features where administrators can add watches, users can search, sort, and order items. Additionally, integrated a notification system allowing users to receive alerts for out-of-stock watches
