  - Designing and implementing responsive and interactive user interfaces using HTML, CSS, and JavaScript frameworks
  - Writing efficient, reusable, and maintainable code to enhance page load times and overall performance.
  - Working closely with UI/UX designers, backend developers, and product managers to translate designs and wireframes into functional web applications.

## NOTABLE PROJECT

- **Birla Tyres**  
Developed a dynamic website utilizing HTML5, CSS3, JavaScript and React Js for a responsive user interface Component. Implemented Next.js for enhanced performance through server-side rendering, while Tailwind CSS facilitated efficient styling. Integrated GSAP for engaging animations and Swiper JS for smooth, touch-friendly navigation. Employed Strapi as a headless CMS for flexible content management.
- **The Pets Magazine**  
The Pets Magazine is an innovative platform designed to streamline pet care for enthusiastic pet parents. Built with HTML, CSS, JavaScript, Tailwind, Swiper, WordPress, and MySQL, our website features an extensive directory of top-tier pet services worldwide. Users can easily search for veterinarians, groomers, trainers, and more based on their location, ensuring they find the best care for their furry companions <https://thepetsmagazine.com/>
- **Voice Of Action**  
Developed a user-centric website using HTML, CSS, JavaScript, Tailwind, and Bootstrap, complemented by WordPress for content management and SQL for database integration <https://voiceofaction.org/>.
- **Small Business Newsroom**  
Worked on a responsive website designed to inform and empower small business owners, entrepreneurs, and writers with the latest industry trends <https://www.sbnewsroom.com/>.
