Harsh Sharma

MERN STACK DEVELOPER

EDUCATION

Bachelor of Computer Science

DIPLOMA DATA SCIENCE 2021-2024

IMSUC GHAZIABAD,DASNA

Higher Secondary Certificate

Vanasthali Public Sr. Sec. School

Mayur Vihar Ph-III, Delhi-96 2016-2021.

PROFILE

Self-starting and resourceful MERN Stack Developer with a proven track record of implementing both front-end and back-end solutions. Excels at designing intuitive, user-friendly interfaces and managing databases for web applications. Recognized for strong problem-solving abilities and a deep understanding of data-driven applications. Adept at collaborating with technical and non-technical team members to deliver high-quality results. A skilled communicator, fostering a collaborative environment focused on exceptional customer service and project success.

EXPERIENCE

Medical Sarthi website | MERN Stack Project

- Developed a comprehensive **Medical Sarthi website** using the MERN stack (**MongoDB, Express.js, React.js, Node.js**).
- Designed and implemented modules for User login, Top Rating Doctor, Provide good Doctor, and Lead the User.
- Integrated **MySQL** for handling User Login Top Rating Doctor, and Provide good Doctor, ensuring fast and connected to patient.
- Enhanced the user experience by creating a responsive, mobile-friendly UI using React.js and Bootstrap.
- Implemented a **REST API** to manage data flow between the client and server, ensuring smooth operation of all hospital functionalities.

MERN Stack Project E-commerce Platform | MERN Stack Project

- Created a full-featured e-commerce website using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Developed features for product listing, shopping cart, order processing, and payment gateway integration (e.g., Stripe or PayPal).
- Implemented user authentication and authorization using JWT for customers and admin dashboards, managing inventory and sales analytics.
- Utilized MongoDB to store user information, product data, and order details, ensuring seamless data management.
- Designed a responsive front-end with React.js and CSS, ensuring a smooth and engaging shopping experience across devices.
- Integrated a secure and scalable back-end with Node.js and Express.js, handling high-volume traffic and real-time order tracking.

Languages

- Hindi
- English

Coursescertificates

- Python full stack using Artificial intelligence from DUCAT IT Training

SKILLS

- Front-End Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
- Back-End Technologies: Node.js, Express.js, MongoDB, RESTful APIs
- Version Control: Git, GitHub
- Database Management: SQL, MongoDB,MySQL
- Data Science Tools: Python, Numpy, Pandas, Matplotlib
- Machine Learning & AI: Scikit-learn, Keras, Deep Learning, Artificial Intelligence
- Web Frameworks: Django
- Other Tools & Libraries: JSON, Axios, Postman

WORK HISTORY

We b developer

Distributions channel Noida,India

June,2024

- Developed responsive websites using **HTML, CSS, JavaScript, and React.js**.
- Converted mockups into dynamic web applications with **HTML, JavaScript, React.js**, and **JSON**.
- Built and maintained front-end components using **Bootstrap, React.js**, and **CodePen**.
- Managed back-end development using **Node.js, Express.js**, and **MongoDB** to ensure application stability.
- Handled troubleshooting requests and resolved user issues in a timely manner.
- Designed user-friendly web forms with comprehensive **validation** and error handling.
- Engineered **RESTful web services** to manipulate and manage dynamic datasets.
- Created optimized, cross-browser-compatible landing pages using **HTML** and **CSS**.
