## PROJECTS

### Real Time Chat App -Mern Stack and Socket Io

<https://chat-frontend-sigma-seven.vercel.app/>

- Developed a real-time chat application using the MERN stack, using socket.io for instant messaging, webRTC for video and audio calls, and passport.js for secure user authentication.
- Integrated Material UI and Tailwind CSS for responsive design, implemented Redux for state management, and optimized performance for a seamless user experience.

### Car-Renting-website-using Next JS Typescript

<https://car-renting-pi.vercel.app/>

- Developed a seamless car rental website using Next.js and TypeScript, featuring advanced search options, dynamic pricing, and responsive design to enhance user experience
- Integrated Razorpay for secure payment transactions, enabling users to buy or rent new cars effortlessly, with 24/7 customer support ensuring satisfaction and convenience.

### Trading Ledeger website -Full-Stack-Project

<https://stockfront-lzv9uw5hl-whorohits-projects.vercel.app/login>

- Designed a stock management platform with secure user registration and login, allowing users to input and track profit and loss details. Integrated Chart.js to visually display monthly and yearly profit/loss trends.
- Enabled users to create and manage a personalized watchlist for selected stocks, fetching real-time data from US stock exchanges to provide up-to-date information.
- Incorporated access to the latest trading news and market insights, offering users a comprehensive view of the stock market to make informed decisions.

## WORK EXPERIENCE

### Monetiscope Services LLP

Aug2024 - Dec2024

Full Stack Developer Intern

- Built and maintained web applications for ad unit generation and reporting.
- Designed innovative ad formats to improve user engagement and revenue.
- Worked with design and product teams to create user-friendly interfaces.
- Integrated and optimized back-end data for seamless functionality.
- Wrote clean, efficient code and fixed application bugs.
- Improved application speed and scalability for better performance.

### Codehop Interfusion Pvt Ltd

Aug2023 - Jan2024

Front-end Developer Intern

- Led the development of an ERP portal at Codehop Interfusion, managing the frontend team and collaborating with stakeholders.
- Used React and Redux for efficient state management and seamless data flow.
- Integrated Chart.js to create dynamic, interactive data visualizations.
- Applied Tailwind CSS for consistent and responsive styling across the portal.
- Gathered requirements, prioritized features, and iterated on feedback to meet client objectives.
