## EXPERIENCE

**MilestoneOS, Noida**

**Training**

**June 2023 – Present**

Successfully completed a hands-on project, developing a fully functional web application emulating the popular music streaming platform, Spotify, using JavaScript. The project encompassed features such as user authentication, playlist creation, and seamless music playback.

Acquired comprehensive training in front-end web development, mastering the art of crafting interactive user interfaces ranging from templates to fully functional websites.

## INTERSHIPS

**Ducat, Noida – Training**

**Oct 2022 – March-2023**

Successfully completed a Six-month training on Front-end web Development where I learned to build interactive user interfaces from templates to whole new fully functional websites using the most common and widespread JavaScript-based library ReactJS and related bundles of libraries. Developed a web application which is a Spotify Clone with the help of JavaScript.

### **Other Skills & Proficiency**
