HTML   CSS   JavaScript   ReactJS   TypeScript   Redux Toolkit   Bootstrap   Tailwind CSS   Github

PERSONAL PROJECTS

Movix
- link :- https://movix-two-gray.vercel.app/
- Designed and developed movie web application using React.js and Scss for the user interface design.
- Implemented React Router Dom for client-side routing, allowing easy navigation between pages without needing to reload the entire page.
- Integrated the TMDB API to fetch movie details and display them on the application, providing users with an extensive library of movies to browse and select.
- Implemented Redux Toolkit to manage the overall state flow of the application, ensuring efficient and scalable state management.

Coin Market
- Link:- https://coin-market-wine.vercel.app/
- A crypto tracker or trading info app based on React, Scss and React Router Dom for routing. Fetching data from coin-gecko API.
- Including features like coin-history in graph representation using library chat.js and toggle price between different currencies.

Ecommerce App
- link :- https://ecommerce-shop-mauve.vercel.app/
- Developed an e-commerce website using React, TailwindCSS and React-router-DOM for routing.
- Fetching data using fake-store API and managing state flow using useContext React-hook

Digital-Agency Fully Responsive Website
- link :- https://mukulvishwakarma099.github.io/digital-website/
- Fully responsive website developed using HTML, CSS and with animation on scroll and running animation in background
