## WORK EXPERIENCE

### Mern Stack Developer Arramton Infotech Pvt. Ltd.

11/2022 - Present

New Delhi

#### Achievements/Tasks

- Proficient in the MERN (MongoDB, Express.js, React, Node.js) stack with hands-on experience in both front-end and back-end development.
- Successfully delivered projects resulting in increased user engagement or improved performance.
- I collaborate closely with front end developers to ensure the seamless integration of server-side and client-side code. This involves working together on the design and implementation of APIs and data models to create a unified and efficient system.
- Actively contributed to code reviews, mentored junior developers, and stayed updated with the latest web development trends to drive project success and maintain high code quality.

Contact : Sanjay Yadav - 8826648669

### Node JS Developer Remote MetroGhar Pvt. Ltd.

09/2022 - 03/2023

Banglore

#### Achievements/Tasks

- My primary responsibility is to create robust and efficient server-side architecture using Node.js and Express.js, which would handle requests from the client-side React.js application and communicate with the MongoDB database.
- Developing RESTful APIs that communicate with the client-side code.

Contact : kamal Tiwari - 7829014141
