SUMMARY

Motivated and detail-oriented Frontend Web Developer with strong foundational knowledge in HTML, CSS, JavaScript, and React.js. Experienced in building responsive and visually engaging web applications through academic and personal projects. Eager to contribute to a dynamic development team and grow within a tech-driven environment.

PROJECT EXPERIENCE

Taste Food Clone App | [Live Site](#)

- Developed a visually appealing and fully responsive food showcase website using React.js and Tailwind CSS.
- Designed intuitive UI with categorized menus and high-quality visuals for enhanced user experience.
- Ensured cross-device compatibility and optimized performance for faster loading times.

Prescripto – Healthcare Booking Website | [Live Site](#)

- Built a full-stack online appointment booking platform using React and Tailwindcss
- Implemented a seamless user flow for booking appointments with doctors, therapists, and specialists.
- Focused on user-friendly design and scalability for real-world healthcare use cases.

Authentication | [Link](#)

- The User Authentication Page, built using the MERN (MongoDB, Express.js, React.js, Node.js) stack, provides a secure and seamless experience for user login, registration, and session management.
-
