About Me

Frontend Developer with 3+ years of experience in building modern web application using tools like Angular, React and other modern JS Technologies to deliver best possible solutions to business requirements.

Skills

Technologies

Javascript, HTML, CSS, React, Angular, Redux, RxJs, NgRx, Gulp, Gatsby

Work experience

Vantage Circle

Feb 2021 – Feb 2023

Front-end Engineer

Migrated blog site which was in Ghost to Gatsby which increased Pagespeed Scores from 70 to 90. Also there were improvements in SEO. The blog is currently having 1million+ active users.

Migrated marketing sites from Wordpress to Gatsby keeping Wordpress as backend. Helped in building marketing related tools, worked closely with CRO team to increase conversions.

Built various marketing tools using React/Gatsby, which helped marketing team to achieve their goals to get leads. Have been providing close support to marketing team to fulfil their frontend needs.

Built various improvements in existing product running in Angular to enhance existing product. Was involved in building Milestone Product inside the current app that has over 100+ clients currently.

Have built dashboard in Angular, was involved in designing the architecture for the project using technologies like Ngrx, Rxjs etc.

Mentored juniors to understand basics of frontend development, writing DRY Code, creating reusable UI components, basics of API integration, etc in React.

Freelancing

Jan 2020 – Jan 2021

Freelance Webdeveloper

Built a job portal webapp in React and Redux which connected recruiters with potential clients. Worked on the various modules in the app.
