**DATABASES**

JavaScript, Node JS, Basic Python, Java  
React JS, Express JS, Next JS  
Git and Github, Visual Studio, Linux Operating System, Postman  
MongoDB

## PROJECTS / OPEN-SOURCE

**E-COMMERCE WEBSITE | [LINK](#)**

React JS, JavaScript ES6, Styled Components

- The React E-Commerce Website is a sophisticated web application developed in React, a powerful front-end JavaScript library.
- Seamlessly integrated "Add to Cart" functionality empowers users to effortlessly manage their shopping experience.
- The website is designed with a focus on providing a visually cohesive and user-friendly e-commerce platform.

**PORTFOLIO WEBSITE | [LINK](#)**

React JS , Styled Component, Animation

- Successfully developed a dynamic Portfolio website utilizing the ReactJS framework and styled components for a modern and responsive user interface.
- Leveraged the capabilities of ReactJS to create a website that is not only feature-rich but also ensures a seamless and responsive user experience across devices.

**IP FETCHER | [LINK](#)**

JavaScript, HTML, CSS, Chrome APIs

- Created a Chrome extension with the primary function of retrieving the IP address associated with the currently active website in the open tab.
- The extension delivers real-time and accurate information, offering users insights into the network location of the currently viewed webpage.
- Designed with a user-centric approach, the extension ensures a seamless and intuitive experience for users seeking to obtain the IP address of the current website.
