Technical Skills

Languages: HTML/CSS, JavaScript, NodeJS, ExpressJS, Jade, ReactJS, Bootstrap.
Database: MongoDB
Developer Tools: VS Code, Git, BitBucket, Jira, Postman.

Experience (1 Year 7 Month)

Appin Technology

Mern Stack Developer

- Spearheaded the development of a large-scale website leveraging Node.js and Express.js framework, ensuring robustness and scalability from inception to deployment.

- Engineered seamless APIs connectivity to MongoDB, facilitating efficient data management and retrieval processes for enhanced performance.

- Played a pivotal role in architecting RESTful APIs, adhering to industry best practices and standards, while effectively utilizing developer tools such as Git, Jira, and Bitbucket to streamline collaboration and project management workflows.

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERNstack), enhancing user experience and functionality.

- Implemented RESTful APIs to enable seamless communication between front-end and back-end services, improving data retrieval and processing times by X%.

- Designed and optimized MongoDB database schemas, ensuring efficient data storage and retrieval for complex applications.

- Collaborated with cross-functional teams in an Agile environment to deliver high-quality software solutions, meeting project deadlines and client specifications.

Projects

Market davanci.com / HTML/CSS, JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB

- User-Friendly Navigation: Our eCommerce platform features intuitive navigation, allowing customers to effortlessly browse categories, find products, and complete purchases, enhancing the overall shopping experience.

- Secure Payment Processing: We prioritize customer security with advanced payment processing solutions, ensuring safe transactions through SSL encryption and compliance with industry standards.

- Responsive Design: Our website is built with a responsive design, providing seamless access across all devices, including desktops, tablets, and smartphones, to maximize customer engagement.

- Comprehensive Customer Support: We offer dedicated customer support through multiple channels, including live chat, email, and phone, ensuring prompt assistance and fostering customer loyalty.

Poolsifi | *HTML/CSS, JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB*

- Developed a full-stack web application using React for the frontend, Node.js and Express for the backend, and MongoDB for the database, enabling dynamic data rendering on the frontend through RESTful APIs.

- Implemented CRUD operations on the MongoDB database and created RESTful API endpoints using Express.js, allowing seamless interaction between the frontend and backend components.

- Utilized modern development tools and technologies including Git for version control, MongoDB for database management, and Express.js for server-side routing and middleware, ensuring efficient project management and code collaboration.

Marry Point | *HTML/CSS, JavaScript*

- Designed and developed a marriage website using HTML, CSS, and JavaScript, providing an intuitive user interface for users to upload their personal details and preferences.

- Implemented interactive features using JavaScript to enhance user experience, such as form validation and dynamic content rendering for displaying uploaded details of prospective brides and grooms.

- Utilized responsive design techniques to ensure the website's compatibility across various devices, providing an accessible platform for individuals to find suitable matches and connect with potential life partners.
