SKILLS

Programming Languages
: C, Java

DataBase:MongoDB.

Web Development:
HTML, CSS, JavaScript,
ReactJs, NodeJs,
ExpressJs

PROJECTS

speedizioni

Full Professional Proficiency

INTERESTS

Exploring new things on
internet.

Meeting new people and
interacting with them

WORK EXPERIENCE

Software Engineer

Hello Mistri

02/2023 - Present

Noida

A home appliance repair company also has an IT department that handles client projects.

speedizioni

- Led a successful client call for the Spedizioni project, ensuring clear communication and project understanding

PROJECTS

speedizioni

- Developed a shipping goods project with 2 languages: Italian and English using Node.js, MongoDB, Express.js, and EJS (frontend). Changed functionality for the admin, so that when the admin changes the shipper status, the new status is shown on the home page.
- Implemented a feature that allows the client to change the package of mail if there is a problem with the email and other functionality
- URL : <https://speedizioni.it/>

CloudIP.com

- Developed function routes for the frontend using ejs (embedded JavaScript).
- Implemented the functionality to change passwords and to only allow login on a single device. Managed the support page functionality and gave admins the extra feature to manage comments. Showed the subscription plan page, the selected plan, and which subscription plans offer what services, etc.
- Developed all of these things in the backend and frontend of the project.
- Url : <https://apps.cloudip.com/>

Door A payment gateway

- Developed a platform for users to buy and sell cryptocurrency using JavaScript, React.js, ASDFOR Payment API, and Metamask.
- Implemented Metamask integration with the React.js frontend, so that all data is handled by Metamask, including login, registration, and transaction data.
- Built a secure and user-friendly platform that allows users to buy and sell cryptocurrency with ease

EDUCATION

B.Tech Computer Science And Engineering

RD Engineering College(Aktu University)

08/2019 - 07/2023

Ghaziabad,India

Higher Secondary Certificate

Vidhan Public School

04/2018 - 03/2019

Ghaziabad,India

ACHIEVEMENTS

Software Developer Trainee (02/2023 - 02/2024)

Software Developer Trainee with 1 year of experience in MERN (MongoDB, Express.js, React.js, Node.js) development. Proficient in various technologies, including Express.JS, MongoDB, React.js, Node.js, Ajax, jQuery, and Liquid (Shopify). Actively involved in a client project, where I gained experience in many aspects of the software development lifecycle. Proven ability to learn new technologies and adapt to new environments. Increasing problem-solving and debugging skills. Create communication and teamwork skills.
