- Core Java
- MySQL
- DSA
- J2EE - Spring Framework, Spring MVC, Spring Boot
- ReactJS, JavaScript, HTML, CSS
- TOOLS - Eclipse, VScode, STS, MySQL Workbench

Project: The Marketplace (Your one stop shop)

Platform: J2EE, React, MySQL

Duration: 2 Months

Description: The Market Place is an online shopping platform for local vendors and customers having very limited physical reach. It provides a digital platform for the vendors to reach the customers by giving them the direct rights to add, display, and sell their products. Customers can buy different products from different vendors at one checkout, thus providing a digital one-stop-shop.

Professional Courses

- Post Graduate Diploma in Advanced Computing
- Precat Preparatory Course
- Programing in C
- Programing in C++
