Enthusiastic and self-motivated web developer with 6 months of experience. Eager to join a Company and bring my skill in frontend and backend development. I wish to work in a dynamic Organisation that will contribute to my professional and personal growth while I contribute to the growth of the company as well as engage in opportunities to further the company's goals.

Experience

Dream Viewer Infotech (React developer)

Jul2023-Dec2023

- Collaborated with a team of developers and designers to create responsive and user-friendly web applications using React.
- Developed reusable and efficient components to streamline the front-end development process.
- Implemented state management using tools such as Redux for efficient data flow and improved application scalability.
- Worked closely with backend developers to integrate API endpoints and ensure seamless communication between front-end and back-end systems.
- Actively participated in sprint planning, daily stand-ups, and retrospective meetings to foster effective communication within the development team.
- Stayed updated on the latest industry trends and emerging technologies to enhance skill set and contribute to continuous improvement.

Ifix (Mern Developer Intern)

March2023-April2023

- Worked as a MERN stack developer intern for one month.
- Developed a responsive blog platform using React for the frontend, Node.js and Express.js for the backend, and MongoDB for the database.
- Implemented user authentication and authorization features.
- Utilized RESTful API design principles for seamless communication between frontend and backend.
- Collaborated with the team to deliver a functional product within a short timeframe.

J Spider(Mern Developer)

March2022-Nov2022

- Completed a comprehensive training program in MERN stack development at J Spider Training Center.
- Acquired hands-on experience with MongoDB, Express.js, React, and Node.js through practical projects and exercises.
- Developed proficiency in building full-stack web applications, implementing RESTful APIs, and working with databases.
