SKILLS

Frontend	Html,Css,Bootstrap,Saas,Tailwind,Javascript,Reactjs
Tools	Git,Github,Postman
Payment Gateway	Razorpay,Paypal
Soft Skills	Nodejs, Express.js, Rest APIs, MongoDB, Mongoose

EXPERIENCE

Gni Soft Solution   **Abohar (November 2022 — September2024)**
- Proficient in React framework, with hands-on experience in developing dynamic web applications and single-page applications (SPAs) for efficient user interaction and seamless navigation.
- Experienced in building responsive web interfaces using React, ensuring optimal performance and user experience across devices and platforms.
- Skilled in utilizing React hooks and state management libraries to create scalable and maintainable web applications.

Flowchanger   **Ganganagar (September 2024 — Present)**
- Expertise in integrating RESTful APIs with React for real-time data interaction and dynamic content rendering.
- Proficient in developing modular, reusable components to streamline development processes and maintain code consistency.
- Skilled in optimizing API integration workflows by leveraging Axios, Fetch, or custom hooks to enhance performance and ensure seamless data synchronization in React applications.

PROJECTS

Ecommerce-Website   **Live**
- Products are displayed dynamically with updates. The responsive design ensures a consistent experience across all devices, from desktops to smartphones.
- Tailwind CSS is used for styling, ensuring a clean and professional appearance with modern UI components. The site design prioritizes usability while maintaining aesthetic appeal.
- Provides a smooth, intuitive shopping experience with fast page load times and easy navigation.

Nft-Website   **Live**
- Designed for seamless NFT browsing, the platform features interactive elements to provide users with a modern and immersive experience. Users can view detailed information about NFTs before purchasing.
- light and dark themes to cater to user preferences, enhancing accessibility and providing a tailored experience.
- Enables users to interact with the growing world of NFTs with ease, offering a visually appealing and functional platform.

Web Design Agency   **Live**
- Features dynamic animations and transitions to capture user attention and convey professionalism. The animations enhance the storytelling aspect of the design, making the website memorable.
- Includes a clear and concise plan or pricing system, helping users understand the agency's offerings and select services that align with their needs.
- Built with React and styled using Tailwind CSS for modern aesthetics and responsiveness. Leveraged advanced animations for a polished experience.

EDUCATION

MR Govt. Collage   **Fazilka(Punjab)**
Bachelor of Arts   *2021-24*
