

# PRABHUDEV ANGADI

## SENIOR SOFTWARE ENGINEER

ORGANIZATION - PERSISTENT SYSTEMS

LOCATION - BENGALURU

EMAIL - [PRABHUDEVANGADI321@GMAIL.COM](mailto:PRABHUDEVANGADI321@GMAIL.COM)

MOBILE - 8494841992

EXPERIENCE - 2.6 years

## Profile Summary

---

### Fullstack developer (Angular, Java, SQL)

- Experienced in designing, developing, implementing, and maintenance of Fullstack application.
- Worked on frontend Angular framework to develop an interactive user interface with HTML and CSS for designing.
- Worked on Spring security with Basic and Jwt authenticatons.
- Developed angular components, services, routing, activated routing and http interceptors.
- Implemented core and advanced java concepts like OOPs, multi-threading, exceptions, collections etc.
- Worked on mysql database and wrote sql queries.
- Worked on REST Apis and Microservices architecture.
- Experienced with Springboot framework, Hibernate, Angular frameworks.
- Worked Spring MVC architecture like entity class ,controller, service jsp servlets,JPA repository layers with annotations in Spring boot framework .
- Worked on Junit and integrated testing.
- Good knowledge in Data structures and algorithms.
- Worked on agile methodoly for project.

### Master data management

- Experienced in Master data management.
- Created data model for mdm.
- Worked on Angular frontend for MDM
- Data dumping into snowflake data warehouse .
- Data profiling and analysis using PowerBi.

## Key Skills and Knowledge

### Fullstack developer

Spring Boot  
Angular  
Hibernate  
MySQL  
Rest APIs

### Master data management

Python  
Reltio MDM

### Programming languages

Java  
Python  
SQL  
Javascript  
Typescript

### Tools

STS  
MySQL workbench  
Eclipse IDE  
Visual studio code  
Reltio MDM  
PowerBi

### Other Skills

AWS  
Java-Kafka

## Certifications

---

MDM Configuration Specialist  
MDM Integration Specialist  
Business analyst

## Project Details

---

### Aptron\_CRM

The purpose of this project is to store and manage customer data for improving customer and business relationship. This deals with agencies and drives their sales to maintain long term business relationship between companies and customers. The project designed to assist marketers, customer service etc.

#### Responsibilities:

- Developed Fullstack web applications using Java/J2EE technologies, Angular and MySQL.
- Used Angular, HTML and CSS to develop an interactive user interface.
- Worked on routing and http interceptors.
- Created Spring security using Basic and JWT authentication.
- Worked on SpringBoot, Hibernate and angular frameworks.
- Created RestAPIs with restcontroller annotation and wrote business logic in service layers.
- Created data bases and wrote queries in MySQL .
- Developing Entity Classes ,Controller layers, Service layers and JPA repository and Configured application.properties file and POM.XML file as well.
- Performed Junit and integration testing.

### OBU\_NEXUS

**Client:** Takeda\_OBU\_MDM

OBU\_NEXUS is a Master data management project where Pharmaceutical data was collected from multiple sources and then undergo match and merging and finally produces single master data or golden record. The golden records are dumped into dataware house and used for business purposes.

#### Responsibilities:

- As part of MDM team worked on Data profiling and analysis
- Configured data model
- Created survivorship rules, match rule, RDM, Graphs etc
- Configured JAR and property files for load and extraction of data
- Worked on Hive queries and HDFS commands.
- Extracted data to snowflake datawarehouse.

## Education

---

Bachelor of Engineering – Visvesvarayya technological university(VTU).
