Education

Kanpur Institute of Technology, Kanpur

Bachelor of Technology in Computer Science and Engineering

May 2018 - June 2022

Kanpur, India

Naval Academy inter college

Class - X - XII

May 2015 – May 2018

Kushinagar, U.P

Experience

Full Stack Developer at [Avataar Skincare Technology](#) (New Delhi)

Oct. 2023 - Present

- **Skills - JavaScript, React.js, Next.js, Node.js, Express.js, MySQL, Tailwind CSS, Material-UI, AWS, Third-Party APIs Integration, Redux Toolkit, Redis, Microservices.**
- Designed and developed multiple **end-to-end dashboards** and **landing pages**, ensuring **seamless management, real-time updates, efficient data handling, insightful business analysis, and automated business reports and analytics** for overall decision-making.
- Proficient in integrating **third-party APIs** including **Google Maps, Zoho Website Analytics, LeadSquared, Wati** and more.
- Developed and implemented an **advanced auto-scheduler algorithm** to **streamline booking operations**, resulting in a remarkable 90% increase in productivity. Making the entire client to operations flow streamlined and automated.
- Enhanced the scheduling process by **creating advanced auto-scheduler that prioritizes nearby locations and therapist availability, featuring user-friendly time slots for seamless appointments.** This improvement further optimized resource allocation and elevated the overall client experience.

Software Engineer at [Kaabil Finance Private Limited](#) (Jaipur, Rajasthan)

Oct. 2022 - Oct. 2023

- **Skills - JavaScript, React.js, Node.js, MongoDB, MySQL, Express.js, Tailwind CSS, Material-UI, SCSS, Third-Party APIs Integration, Redux Toolkit.**
- Designed and implemented a **Ledger Management System** using the MERN stack for **real-time transaction tracking**, enhancing visibility and enabling prompt **decision-making by 30%**. Optimized financial operations and encouraged transparency and collaboration within the organization.
- Implemented a **robust transaction history feature** that **recording and displaying** all transaction details **facilitating efficient auditing processes and ensuring compliance with regulatory standards by 95%**.
- Integrated the project **Ledger Management System** seamlessly with existing financial processes, including petty cash management, bank deposit tracking, and cash request approvals, **enhancing transparency and minimizing manual data entry errors by 80%**.
- Developed and implemented key features of the **Gold Packet Management System**, ensuring accurate **packet tracking** and management using **React Js, Node Js, MongoDB, Formik and many more.**
- Developed a **real-time transaction aggregation system**, seamlessly integrating data from multiple branches to generate daily reports. This resulted in enhanced operational insights and decision-making capabilities, **achieving a notable 95% improvement** in data accuracy and promptness.

Software Engineer at [MountBlue Technologies Private Limited](#) (Bangalore, India) May 2022 - Oct. 2022

- Developed and maintained web applications using **ReactJs, JavaScript, nodejs, expressjs and Mongoddb.**
- Developed an ecommerce website using **ReactJS and Redux**, utilizing **Firebase authentication** to enable users to **sign up, log in, log out.**
- Implemented user **authentication and authorization** in login screen, to secure the web application.
- Utilized an **API** to fetch product data and implemented **sorting, search**, and category search features to enable users to **filter products by price, name, and category** such as shoes, clothes, or furniture
- Utilized React hooks and Redux for state management to ensure high performance and scalability of the application
- Leveraged GraphQL for optimized API calls, providing seamless data retrieval and manipulation, while also integrating AWS S3 Bucket for efficient storage of car-related assets.

Technical Skills

Relevant Coursework: Data Structures and Algorithms, JavaScript, ReactJs and NodeJs Certifications.

Languages: C/C++, JavaScript, Python.

Hands on tech: Full Stack Development, third-party Integration, Responsive Web Development.

Web Technologies: JavaScript, Mongoddb, MySQL, Node.js, Express.js, React.js, Next.js, Redux Toolkit, Socket.io, Firebase, Material-UI, Redies, HTML, CSS.

Solved over 500+ DSA Problems on various coding platform covering different varieties of questions.
